---------------------------	-------	----------

Terms of Reference	
Specific Area	Location in the report
a) The Workgroup can demonstrate how any proposals would increase participation (nominations or voting)	
b) Consider how and why CUSC Signatories could be 'grouped' together and how Joint Ventures are incorporated	
c) In setting the number for total votes for a grouped CUSC Signatories detail the basis on how this has been determined	
d) Consider the appropriate % of votes to be casted for an Election to be valid and what the process would be if this % is not achieved and what the consequences would be	
e) Process for an active Party becoming a Dormant Party	
f) Consider how a Panel would ensure that there was continuous experience on the Panel if a set period that a candidate could hold office for	
g) How more smaller participants could be become more involved in the process	
h) Consider what funding model could be used for paying for a non-CUSC Party/Independent persons to be a Panel Member	
i) Consider whether the Panel should be fully independent or independent from a constituency.	
j) Consider the constitution of the Panel and whether any changes should be made to the composition	
k) Define the process for use of Alternate (e.g. would this be the Panel Member or by Code Administration or via another means)	
l) Consider how Materially Impacted Parties non CUSC Parties could be involved further in the process	
m) Consider the CMA findings and work performed by other Code Bodies under Code Governance and best practice from other Code Bodies	
n) Consider what changes to the CUSC Panel are permissible, e.g. what are the boundaries in relation to the CUSC Panel in context of the Ofgem Code Governance Review/Transmission Licence	
o) Understand any consequential impact on any other codes and how a cross code model could work.	
p) Define criteria to understand how the value of independence is judged.	

Applicable CUSC Objectives (standard)
(a) The efficient discharge by the Licensee of the obligations imposed on it by the Act and the Transmission Licence;
(b) Facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the sale, distribution and purchase of electricity;

(c) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency; and
(d) Promoting efficiency in the implementation and administration of the CUSC arrangements.
