

STCP Amendment Proposal Form

PA066

1. Title of Amendment Proposal

STCP19-3 - Clarification of Transmission System Boundary Point registration with Elexon.

2. Description of the Proposed Amendment (mandatory field)

Minor amendments to STCP19-3 to add clarification on the requirement to register with Elexon all new connections to the GB Transmission System as new Transmission System Boundary Points (TSBP). Clarity to be added on the roles of TO and NGET, the required notification period and connection types requiring registration.

3. Description of Issue or Defect that Proposed Amendment seeks to Address (mandatory field)

There have been a number of instances highlighted over the last 12 months where energisation of transmission connected assets has taken place (across E&W and Scotland) without the appropriate registrations and approvals from Elexon. This can result in potential incorrect volume allocations within the GB Balancing Mechanism. All new Grid Supply Points (new connections to the NETS) must be registered with Elexon as a new TSBP no later than 3 months ahead of first energisation. In addition, and following further assessment by Elexon of the associated settlement metering, energisation is not permitted without written approval from Elexon.

4. Impact on the STC (information should be given where possible)

Minor text changes as follows;

- New bullet proposed under 3.1.4 of the procedure
- New section proposed under 3.2.17 of the process
- New checklist item proposed to Appendix B Compliance Monitoring Statement
- Appendix C proposed amendment to the roles and responsibilities of NGET (C2) and the TO (C3)

5. Impact on other frameworks e.g. CUSC, BSC (information should be given where possible)

N/A

6. Impact on Core Industry Documentation (information should be given where possible)

N/A

7. Impact on Computer Systems and Processes used by STC Parties (information should be given where possible)

N/A

8. Details of any Related Modifications to Other Industry Codes (where known)

N/A

9. Justification for Proposed Amendment with Reference to Applicable STC Objectives (mandatory field)

STC Objectives

- (a) efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act;
- (b) development, maintenance and operation of an efficient, economical and co-ordinated system of electricity transmission;
- (c) facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity;
- (d) protection of the security and quality of supply and safe operation of the national electricity transmission system insofar as it related to interactions between transmission licensees;
- (e) promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC; and
- (f) facilitation of access to the national electricity transmission system for generation not yet connected to the national electricity transmission system or distribution system.

Details of Proposer Organisation's Name	National Grid
Capacity in which the Amendment is being proposed (i.e. STC Party or other Party as designated by the Authority pursuant to STC section B7.2.2.1 (b))	NGET System Operator obligation to register all new GB Transmission System Boundary Points
Details of Proposer's Representative Name Organisation Telephone Number Email Address	Steve Dugmore National Grid 07966 200432 Steve.dugmore@nationalgrid.com
Details of Representative's Alternate Name Organisation Telephone Number Email Address	Richard Lavender National Grid Richard.Lavender@nationalgrid.com
Attachments (Yes/No): Yes	

Notes:

1. Those wishing to propose an Amendment to the STC should do so by filling in this "Amendment Proposal Form" that is based on the provisions contained in Section 7.2 of the STC.
2. The Committee Secretary will check that the form has been completed, in accordance with the requirements of the STC, prior to submitting it to the Committee. If the Committee Secretary accepts the Amendment Proposal form as complete, then she/he will write back to the Proposer informing them of the reference number for the Amendment Proposal and the date on which the Committee will consider the Proposal. If, in the opinion of the Committee Secretary, the form fails to provide the information required in the STC, then he/she may reject the Proposal. The Committee

Secretary will inform the Proposer of the rejection and report the matter to the Committee at their next meeting. The Committee can reverse the Committee Secretary's decision and if this happens the Committee Secretary will inform the Proposer.

The completed form should be returned to:

Lucy Hudson
