Name of forum: CUSC Panel
Meeting date: 31/01/2020

CMP212 Relevant Interruptions Claim Report

Purpose of Relevant Interruptions Claims Report

As a result of the implementation of '**CMP212: Process for setting minimum limits for claims for Relevant Interruptions**', it was agreed that the Code Administrator would produce a report to the CUSC Panel detailing information in respect of the Relevant Interruptions received during each reporting period.

This report covers claims received between 1 April 2019 to 31 December 2019. Going forward these reports will be produced quarterly and submitted to the CUSC Modifications Panel. Due to delays within previous reporting periods this report captures claims received back to 1 April not captured on the previous report from January to May 2019.

Summary

Table 1 below gives an overview of the status of the claims received during the reporting period.

Table 1

Total Claims Received	Claims Rejected	Claims being Processed	Claims Pending Payment	Claims Paid
3	2	0	0	1

Additional Detail

Table 2 shows details of individual claims in date order received during the reporting period.

Table 2

Claim	Power Stations Affected	Claim Status	Business Days between claim submission and final letter	Extension to CUSC Section 5.10.6 agreed	Paid Value £k (nearest £5k)
67	1	Rejected	-	n/a	n/a
68	1	Accepted	44	No	£25,000
69	1	Rejected	-	n/a	n/a

Claims from previous reporting periods (pending or being processed)

Table 3 provides an update of claims from previous reporting period where the status of the claim was pending or being processed

Table 3

Claim	Power Stations Affected	Status	Business Days between claim submission and final letter	Extension to CUSC Section 5.10.6 agreed	Paid Value £k (nearest £5k)
66	1	Paid 17 June	34	No	£30,000
