

CUSC Amendment Proposal Form	CAP:129
Title of Amendment Proposal:	
Removal of CUSC 6.17 and section B from Exhibit F	
Description of the Proposed Amendment <i>(mandatory by proposer):</i>	
<p>It is proposed to remove CUSC 6.17 and Section B from Exhibit F of the CUSC for Use of System Applications (Suppliers or Interconnector Users), as the provisions are no longer required, consequently this causes confusion for new applicants.</p> <p>Description of Issue or Defect that Proposed Amendment seeks to Address <i>(mandatory by proposer):</i></p> <p>CUSC 6.17 requests data under the Grid Code from Users from the Transfer Date and Section B within Exhibit F requests Data under Paragraph 6.17. However this was only relevant to Users who were parties to the MCUSA at the Transfer Date of March 1990 and is therefore not relevant to new applicants.</p> <p>Consequently, this is causing confusion when new applicants apply to National Grid via the form within Exhibit F which creates delays in the application process. We believe it would be beneficial to remove the redundant provisions from the CUSC.</p>	
Impact on the CUSC <i>(this should be given where possible):</i>	
<p>The CUSC will require the deletion of 6.17 and the deletion of Section B of Exhibit F. The proposed Legal text to modify the CUSC is detailed below by deleting the coloured struck through text.</p>	
6.17	<p><u>PROVISION OF DATA Not used</u></p> <p>The majority of the data required under the Grid Code has been supplied by the User prior to the Transfer Date. However, in respect of the following data required under the Planning Code of the Grid Code it is agreed that each User who was a party to the MCUSA at the Transfer Date need only supply it under the Grid Code within one year of the Transfer Date, unless The Company requests it in writing before the expiry of that period, in which case the User from whom the data is requested must supply it within six weeks of receiving that request, except in the case of the data referred to in PCA 5.3.1(g) which need only be supplied within three months of receiving that request. The data to which this clause applies is that referred to in the following paragraphs of the Planning Code:</p> <ul style="list-style-type: none"> ———— PCA 2.3 ———— PCA 4.3.7 ———— PCA 4.3.9 ———— PCA 5.2.1 ———— PCA 5.2.2 ———— PCA 5.3.1(g) <p>The Company shall also be able to request a User in writing at any time to supply to The Company any data under the Planning Code which it should have supplied to The Company prior to the Transfer Date but which it did not supply, and the User must supply that data upon receiving that request. This Paragraph 6.17 shall not apply to a</p>

User acting as a Supplier of a Non-Embedded Customer.

Justification for Proposed Amendment with Reference to Applicable CUSC Objectives** (*mandatory by proposer*):

National Grid believes that this proposal will better facilitate CUSC Applicable Objective (a) (***The efficient discharge by the licensee of the obligations imposed upon it under the Act and by the Transmission Licence***). The removal of the redundant clauses within the CUSC will prevent confusion when new applicants apply to National Grid for Use of System agreements under Exhibit F, consequently removing inefficiencies and delays within the application process.

Notes:

- Those wishing to propose an Amendment to the CUSC should do so by filling in this "Amendment Proposal Form" that is based on the provisions contained in Section 8.15 of the CUSC. The form seeks to ascertain details about the Amendment Proposal so that the Amendments Panel can determine more clearly whether the proposal should be considered by a Working Group or go straight to wider National Grid Consultation.
- The Panel Secretary will check that the form has been completed, in accordance with the requirements of the CUSC, prior to submitting it to the Panel. If the Panel Secretary accepts the Amendment Proposal form as complete, then he will write back to the Proposer informing him of the reference number for the Amendment Proposal and the date on which the Proposal will be considered by the Panel. If, in the opinion of the Panel Secretary, the form fails to provide the information required in the CUSC, then he may reject the Proposal. The Panel Secretary will inform the Proposer of the rejection and report the matter to the Panel at their next meeting. The Panel can reverse the Panel Secretary's decision and if this happens the Panel Secretary will inform the Proposer.

The completed form should be returned to:

Or via e-mail to: Beverley.Viney@uk.ngrid.com

(Participants submitting this form by email will need to send a statement to the effect that the proposer acknowledges that on acceptance of the proposal for consideration by the Amendments Panel, a proposer which is not a CUSC Party shall grant a licence in accordance with Paragraph

8.15.7 of the CUSC. A Proposer that is a CUSC Party shall be deemed to have granted this Licence).

3. Applicable CUSC Objectives** - These are defined within the National Grid Company Transmission Licence under Section C7F, paragraph 15. Reference should be made to this section when considering a proposed amendment.
