

Code Administrator Meeting Summary

Meeting Name: GC0107/113 Workgroup 6

Date: 19 June 2019

Contact Details

Chair: Paul Mullen

Contact details: paul.j.mullen@nationalgrideso.com

Proposer: Rob Wilson

Contact details: robert.wilson2@nationalgrideso.com

Key areas of discussion

- Rob Wilson walked through the work he had done to identify those transmission connected requirements that could be agreed bilaterally. (As a consequence, Mike Kay will need to slightly modify the equivalent work he has done for distribution connections – *note this part has been completed.*)
- The consolidated transmission and distribution list will form a template which will be added to the Data Registration Code part of Grid Code. This template will be completed by the ESO and DNOs (and maybe IDNOs) who would send the updates to the ESO to collate and publish.
- Workgroup agreed to Code Administrator's proposal to restructure the workgroup report into clear themes to create a coherent story for industry.
- Workgroup reviewed legal text but it was clear that further work is needed to reflect the process agreed.

Next steps

The Workgroup agreed that the following next steps:

- Updated legal text and workgroup report (including the consolidated template of transmission and DNO requirements that could be agreed bilaterally) to be issued to workgroup 28 June 2019 (*this will now be 3 July 2019*);
- Workgroup to provide comments on legal text and workgroup report by 5 July 2019 (*this will now be 10 July 2019*); and
- Next meeting pencilled in for 10 July to discuss showstopper comments with a view to thereafter sending workgroup consultation.

Actions from this workgroup meeting (all added to action log)
