For reference the applicable CUSC objectives are:

- a. *That compliance with the use of system charging methodology facilitates effective competition in the generation and supply of electricity and (so far as is consistent therewith) facilitates competition in the sale, distribution and purchase of electricity;*
- b. *That compliance with the use of system charging methodology results in charges which reflect, as far as is reasonably practicable, the costs (excluding any payments between transmission licensees which are made under and accordance with the STC) incurred by transmission licensees in their transmission businesses and which are compatible with standard licence condition C26 requirements of a connect and manage connection);*
- c. *That, so far as is consistent with sub-paragraphs (a) and (b), the use of system charging methodology, as far as is reasonably practicable, properly takes account of the developments in transmission licensees' transmission businesses;*
- d. *Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency. These are defined within the National Grid Electricity Transmission plc Licence under Standard Condition C10, paragraph 1 *; and*
- e. *Promoting efficiency in the implementation and administration of the CUSC arrangements.*

**Objective (d) refers specifically to European Regulation 2009/714/EC. Reference to the Agency is to the Agency for the Cooperation of Energy Regulators (ACER).*

Please express your views in the right-hand side of the table below, including your rationale.

| Standard Code Administrator Consultation questions | | |
|--|---|---|
| 1 | Do you believe that the CMP345 Original solution, WACM1, WACM2, WACM3, WACM4, WACM5, WACM6, WACM7 or WACM8 better facilitates the Applicable CUSC Objectives? | Yes. The Original solutions and all WACMs better facilitate the Applicable CUSC Objectives relative to the Baseline. Failure to take action of this nature is likely to leave CUSC arrangements deficient in delivering the Applicable CUSC objectives (A and C in particular). |
| 2 | Do you support the proposed implementation approach? | Yes or any other approach to implementation that supports retrospective effect to ensure that the material increases in balancing services spend associated with Covid-19 are captured. |
| 3 | Do you have any other comments? | Not at this time. |
