1 Summary

Defect

For the ESO to fulfil the requirements of Ofgem's TCR Direction (The Direction) other Sections of the CUSC may require further update to allow CUSC Modification Proposal CMP332 to appropriately define the Original Proposal and any Workgroup Alternative CUSC Modification Proposals.

What

The Proposer considers that at the least changes will be required to Section 11 to allow the inclusion of new or amended definitions; however, further changes may be necessary depending upon the scope of changes considered by the CMP332 Workgroup.

Why

Under current CUSC governance arrangements, separate proposals are required to be raised to alter Section 14 and other sections of the CUSC. This proposal will allow Sections of the CUSC other than Section 14 to be amended to support the development of CMP332.

How

Alter and add, at the least, defined terms to Section 11 as necessary for the development of CMP332.

2 Governance

Justification for Urgent Procedures

Urgent procedures should be followed as this change relates to Modification Proposals related to Ofgem Targeted Charging Review and the Proposer requests that this Proposal be considered by the existing CMP317/327 Workgroup allowing it to progress to Ofgem by the date outlined in the ENA Targeted Charging Review Project Initiation Document.

Requested Next Steps

This modification should: be assessed by a Workgroup.

3 Why Change?

Under current CUSC governance a different set of code objectives apply to Modification Proposals raised to change Section 14 compared to other Sections of the CUSC. To allow the progression of CMP332 and appropriate consideration of the Original Proposal, Workgroup Alternative CUSC Modification Proposals and the legal text to

support these changes a separate modification is required to alter Sections of the CUSC outside of Section 14.

4 Code Specific Matters

Mandatory for the Proposer to complete. Please provide any specialist information (that is Code-specific), such as technical skillsets required and any reference documents.

Technical Skillsets

None

Reference Documents

CUSC modification CMP332 and Ofgem's TCR Direction.

5 Solution

Amend the CUSC where necessary to support the Original Proposal and any Workgroup Alternative CUSC Modification Proposals as raised by the CMP332 Workgroup.

6 Impacts & Other Considerations

This Proposal impacts CMP332 insofar as it is required to appropriately consider the Original Proposal and any Workgroup Alternative CUSC Modification proposals.

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

This Modification Proposal supports the Direction given to the ESO to implement the conclusions of Ofgem's Targeted Charging Review.

Consumer Impacts

None above those included within CMP332.

7 Relevant Objectives

Mandatory for the Proposer to complete.

Impact of the modification on the Applicable CUSC Objectives (Standard):

Relevant Objective	Identified impact
(a) The efficient discharge by the Licensee of the obligations	Positive

imposed on it by the Act and the Transmission Licence;	
(b) Facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the sale, distribution and purchase of electricity;	None
(c) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency *; and	None
(d) Promoting efficiency in the implementation and administration of the CUSC arrangements.	Positive
*Objective (c) refers specifically to European Regulation 2009/714/EC. Reference to the Agency is to the Agency for the Cooperation of Energy Regulators (ACER).	

This modification is expected to have a positive impact against CUSC applicable objectives A and D as this proposal will ensure that the CUSC remains fit for purpose with the implementation of the Authority's TCR decision. The rationale for the Decision(s) made by the Authority in respect of the Targeted Charging Review SCR can be found in the Authority/GEMA publications relating to that SCR. There is no expected impact upon CUSC applicable objective B and C.

8 Implementation

This Modification Proposal should be implemented alongside CMP332.

9 Legal Text

The legal text for this Modification Proposal will be developed in conjunction with that of CMP332.

10 Recommendations

Proposer's Recommendation to Panel

Panel is asked to:

- Agree that Normal procedures should apply; and
- Refer this proposal to the CMP332 Workgroup for assessment.
