1.	Introductions	Code Administrator	10:00 – 10:05
2.	Presentation: **GC0133**: Timely informing of the GB NETS System State condition	Garth Graham, SSE	10:05 – 10:40
3.	AOB	All	10:40 – 10:45
4.	Close	Code Administrator	10:45

GC0133: Timely informing of the GB NETS System State condition

Garth Graham, SSE

GC0133 is about the timely informing of the GB NETS System State condition to market participants using existing processes (meaning little impact on parties) to enhance transparency of the electricity system to stakeholders.

Ofgem sent the proposal back and a Workgroup is to be established to consider the benefits of the modification to market participants and stakeholders; and the challenges to the ESO of providing this information, including the challenges of publishing the reasons for the changes of system state condition.
