

Code Administrator Meeting Summary

GC0138 and GC0141 – Workgroup meeting 4

Date: 8 October 2020

Contact Details

Chair: Joseph Henry, National Grid ESO

joseph.henry2@nationalgrideso.com
07970673220

Proposer: Mark Horley, National Grid ESO

Mark.Horley@nationalgrideso.com

Key areas of discussion

The Workgroup discussed the following:

- The workgroup discussed comments provided on the legal text for both modifications. The Code Administrator addressed workgroup concerns around comments and feedback given being addressed in the development of the original solution. The workgroup attributed a RAG status to comments made and the ESO took an action away to address these comments and develop a draft version of the original solution.
- The workgroup were advised on the process of raising alternative solutions, which could potentially become Workgroup Alternative Grid Code Modifications. The workgroup were asked to begin thinking of alternative solutions if there were any discrepancies between their understanding of the modifications and those put forwards in the original solution.
- The workgroup reviewed legal text produced by the proposer in regards to the following areas:
 1. Fault Ride Through Wording (Connection Conditions/ECC)
 2. Fault Ride Through Simulations (ECP)
 3. Compliance Repeat Plan (ECP)
 4. P.C.9.A
- The Code Administrator outlined the plan to get to Workgroup Consultation stage. Draft versions of the consultation will be prepared ahead of the next meeting, due to be held on the week commencing 23 November 2020. A poll will be sent to Workgroup members to ascertain availability for this next meeting.

For further information, please contact the Code Administrator.
