CMP193 – Housekeeping Modifications to Section 14 of the CUSC

Andy Wainwright - CUSC Panel – 25th March 2011

Current Position

- 30th December 2010 – CUSC Amendment Proposal 188 Implemented

- Section 14 of CUSC created

- Charging Methodologies now under CUSC

- No amendment to content at that stage

- Inconsistent with main body of CUSC

Proposed CUSC Modification

- Following non-material changes to section 14;
  - Removal of superfluous sections;
    - Contents pages, title pages, introductions, glossaries
    - Definitions harmonised with Section 11 definitions
      - See CMP194
  - Renumbering of sections consistent with main body of CUSC
    - Including resultant reference changes
  - Minor non-material updates;
    - References to 'GB transmission system' changed to 'National Electricity transmission system'
    - References to 'National Grid' changed to 'the Company'

Justification for Self-Governance

- **Proposed changes are non-material**

- **Circulation of initial proposals for comment;**

  - One comment regarding replacement of 'GB transmission system' with 'National Electricity transmission system'

  - One comment regarding update of time varying data

    - Not being progressed under this proposal

Applicable CUSC Objectives

■ Facilitating effective competition

   ■ Improves clarity of Use of System and Connection Charging Methodologies within the CUSC and therefore better facilitates industry understanding, and hence competition.

Recommendation to the Panel

- The Panel is asked to agree that:

    - The proposal meets self-governance criteria

    - The proposal progresses straight to Code Administrator Consultation
