

## Workgroup Terms of Reference and Membership

### TERMS OF REFERENCE FOR GC0147 WORKGROUP

#### Last resort disconnection of Embedded Generation – enduring solution

##### Responsibilities

1. The Workgroup is responsible for assisting the Grid Code Review Panel in the evaluation of Grid Code Modification Proposal **GC0147: Last resort disconnection of Embedded Generation – enduring solution**, proposed by Rob Wilson of National Grid Electricity System Operator (NGESO), in July 2020 and presented to the Grid Code Review Panel on 30 July 2020.
2. The proposal must be evaluated to consider whether it better facilitates achievement of the Grid Code Objectives. These can be summarised as follows:
  - (i) *To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity;*
  - (ii) *To facilitate competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);*
  - (iii) *Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national;*
  - (iv) *To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency. In conducting its business, the Workgroup will at all times endeavour to operate in a manner that is consistent with the Code Administration Code of Practice principles; and*
  - (v) *To promote efficiency in the implementation and administration of the Grid Code arrangements.*

##### Scope

3. The Workgroup must consider the issues raised by the Modification Proposal and consider if the proposal identified better facilitates achievement of the Grid Code Objectives.
4. In addition to the overriding requirement of point 3 above, the Workgroup shall consider and report on the following specific issues:
  - a) *Implementation and costs;*

- b) The draft legal text should it have been provided. If legal text is not submitted within the Grid Code Modification Proposal the Workgroup should be instructed to assist in the developing of the legal text;*
  - c) Whether any further Industry experts or stakeholders should be invited to participate within the Workgroup to ensure that all potentially affected stakeholders have the opportunity to be represented in the Workgroup. Demonstrate what has been done to cover this clearly in the report;*
  - d) The need for an unambiguous and enduring means for the ESO to, as a last resort, instruct DNOs to disconnect or otherwise control embedded generators;*
  - e) The consultation responses received from the GC0143 modification and the requirements of Ofgem's decision on this;*
  - f) The definition of a last resort action and the priority given to different types of generators when addressing last resort disconnections including the impacts on industrial processes and the environment;*
  - g) The need for the ESO and DNOs to, in an emergency, be able to act with enough flexibility to avert further disruption to consumers; and*
  - h) Any cross codes impacts, including the potential for compensation arrangements for generators being disconnected and any consideration of arrangements in place under the Applicable Balancing Services Volume Data (ABSVD) which was progressed through modification P354.*
  - (i) Consider interaction with European Network Code requirements (EBGL) and NCER and possible impact on system defence/restoration plans.*
5. As per Grid Code GR20.8 (a) and (b), the Workgroup should seek clarification and guidance from the Grid Code Review Panel when appropriate and required.
6. The Workgroup is responsible for the formulation and evaluation of any Workgroup Alternative Grid Code Modifications arising from Group discussions which would, as compared with the Modification Proposal or the current version of the Grid Code, better facilitate achieving the Grid Code Objectives in relation to the issue or defect identified.
7. The Workgroup should become conversant with the definition of Workgroup Alternative Grid Code Modification which appears in the Governance Rules of the Grid Code. The definition entitles the Group and/or an individual member of the Workgroup to put forward a Workgroup Alternative Code Modification proposal if the member(s) genuinely believes the alternative proposal compared with the Modification Proposal or the current version of the Grid Code better facilitates the Grid Code objectives. The extent of the support for the Modification Proposal or any Workgroup Alternative Modification (WACM) proposal arising from the Workgroup's discussions should be clearly described in the final Workgroup Report to the Grid Code Review Panel.
8. Workgroup members should be mindful of efficiency and propose the fewest number of WACM proposals as possible. All new alternative proposals need to be proposed using the Alternative Request Proposal form ensuring a reliable source of information for the Workgroup, Panel, Industry participants and the Authority.

9. All WACM proposals should include the Proposer(s)'s details within the final Workgroup report, for the avoidance of doubt this includes WACM proposals which are proposed by the entire Workgroup or subset of members.
10. There is an option for the Workgroup to undertake a period of Consultation in accordance with Grid Code GR. 20.11, if defined within the timetable agreed by the Grid Code Panel. Should the Workgroup determine that they see the benefit in a Workgroup Consultation being issued they can recommend this to the Grid Code Review Panel to consider.
11. Following the Consultation period the Workgroup is required to consider all responses including any Workgroup Consultation Alternative Requests. In undertaking an assessment of any Workgroup Consultation Alternative Request, the Workgroup should consider whether it better facilitates the Grid Code Objectives than the current version of the Grid Code.
12. As appropriate, the Workgroup will be required to undertake any further analysis and update the appropriate sections of the original Modification Proposal and/or WACM proposals (Workgroup members cannot amend the original text submitted by the Proposer of the modification) All responses including any Workgroup Consultation Alternative Requests shall be included within the final report including a summary of the Workgroup's deliberations and conclusions. The report should make it clear where and why the Workgroup chairman has exercised their right under the Grid Code to progress a Workgroup Consultation Alternative Request or a WACM proposal against the majority views of Workgroup members. It should also be explicitly stated where, under these circumstances, the Workgroup chairman is employed by the same organisation who submitted the Workgroup Consultation Alternative Request.
13. The Workgroup is to submit its final report to the Modifications Panel Secretary on 15 January 2021 for circulation to Panel Members. The final report conclusions will be presented to the Grid Code Review Panel meeting on 22 January 2021.

## Membership

It is recommended that the Workgroup has the following members:

Role	Name	Representing (User nominated)	Percentage of meetings attended
Chair	Nisar Ahmed	Code Administrator	
Technical Secretary	Kirsten Shilling	Code Administrator	
Proposer & Workgroup Member	Rob Wilson	National Grid ESO	
Workgroup Member	Andrew McLeod	Northern Powergrid	
Workgroup Member	Andrew Vaudin	EDF	
Workgroup Member	Brian Morrissey	Scottish Hydro Electric Power Distribution plc	
Workgroup Member	Dr Isaac Gutierrez	Scottish Power Renewables (UK) Limited	
Workgroup Member	Fungai Madzivadondo	Energy Networks Association	
Workgroup Member	Garth Graham	SSE	
Workgroup Member	Graham Bone	Infinis Energy Services	
Workgroup Member	Grant McBeth	SP Energy Networks	
Workgroup Member	Graz Macdonald	Viridis Power	
Workgroup Member	Jack Presley Abbott	Centrica Bridd Limited	
Workgroup Member	Jeremy Caplin	Elxon	

## GC0147 Workgroup Terms of Reference

Workgroup Member	John Smart	Southern Electric Power Distribution plc	
Workgroup Member	Mark Meyrick	The Renewable Energy Company Limited	
Workgroup Member	Matthew Cullen	E.ON UK Plc	
Workgroup Member	Paul Graham	Sembcorp Energy Uk Limited	
Workgroup Member	Paul Youngman	Drax	
Workgroup Member	Richard Wilson	UK Power Networks	
Workgroup Member	Robert Longden	Cornwall Insight	
Alternate	Alan Crieghton	Northern Powergrid	
Alternate	DR Brian Tilley	E.ON UK Plc	
Alternate	Peter Dennis	The Renewable Energy Company Limited	
Observer	Bill D'Albertanson	UK Power Networks	

14. A (\*) Workgroup must comprise at least 5 members (who may be Panel Members). The roles identified with an asterisk (\*) in the table above contribute toward the required quorum, determined in accordance with paragraph 15 below.
15. The Grid Code Review Panel must agree a number that will be quorum for each Workgroup meeting. The agreed figure for GC0147 is that at least 5 Workgroup members must participate in a meeting for quorum to be met.
16. A vote is to take place by all eligible Workgroup members on the Modification Proposal and each WACM proposal and Workgroup Consultation Alternative Request based on their assessment of the Proposal(s) against the Grid Code objectives when compared against the current Grid Code baseline.
  - Do you support the Original or any of the alternative Proposals?
  - Which of the Proposals best facilitates the Grid Code Objectives?

The Workgroup chairman shall not have a vote, casting or otherwise. The results from the vote and the reasons for such voting shall be recorded in the Workgroup report in as much detail as practicable.

17. It is expected that Workgroup members would only abstain from voting under limited circumstances, for example where a member feels that a proposal has been insufficiently developed. Where a member has such concerns, they should raise these with the Workgroup chairman at the earliest possible opportunity and certainly before the Workgroup vote takes place. Where abstention occurs, the reason should be recorded in the Workgroup report.
18. Workgroup members or their appointed alternate are required to attend a minimum of 50% of the Workgroup meetings to be eligible to participate in the Workgroup vote.
19. The Technical Secretary shall keep an Attendance Record for the Workgroup meetings and circulate the Attendance Record with the Action Notes after each meeting. This will be attached to the final Workgroup report.
20. The Workgroup membership can be amended from time to time by the Grid Code Review Panel and the Chairman of the Workgroup.
