

## Workgroup Terms of Reference and Membership

### CMP373 – Deferral of BSUoS billing error adjustment

#### Responsibilities

1. The Workgroup is responsible for assisting the CUSC Modification Panel in the evaluation of CUSC Modification Proposal **CMP373** raised by **EDF Energy** at the Modifications Panel meeting on **21 April 2021**. The proposal must be evaluated to consider whether it better facilitates achievement of the Applicable CUSC Objectives.

#### Applicable CUSC (charging) Objectives

- a) That compliance with the use of system charging methodology facilitates effective competition in the generation and supply of electricity and (so far as is consistent therewith) facilitates competition in the sale, distribution and purchase of electricity;
- b) That compliance with the use of system charging methodology results in charges which reflect, as far as is reasonably practicable, the costs (excluding any payments between transmission licensees which are made under and accordance with the STC) incurred by transmission licensees in their transmission businesses and which are compatible with standard licence condition C26 requirements of a connect and manage connection);
- c) That, so far as is consistent with sub-paragraphs (a) and (b), the use of system charging methodology, as far as is reasonably practicable, properly takes account of the developments in transmission licensees' transmission businesses;
- d) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency \*; and
- e) Promoting efficiency in the implementation and administration of the system charging methodology.

\*Objective (d) refers specifically to European Regulation 2009/714/EC. Reference to the Agency is to the Agency for the Cooperation of Energy Regulators (ACER).

2. It should be noted that additional provisions apply where it is proposed to modify the CUSC Modification provisions, and generally reference should be made to the Transmission Licence for the full definition of the term.

#### Scope of work

3. The Workgroup must consider the issues raised by the Modification Proposal and consider if the proposal identified better facilitates achievement of the Applicable CUSC Objectives.
4. In addition, the Workgroup shall consider and report on the following specific issues:

Workgroup Term of Reference

Location in Workgroup Report

a) Consider EBGL implications	“Interactions” section
b) Consider ESO’s proposed way forward to address the £44m BSUoS under-recovery (as published on 20 April 2021). Ensure impacts are considered.	“What is the Issue” section
c) Consider if recovery of £44m BSUoS under-recovery is more appropriate through the 2021/22 SF runs rather than the 2020/21 RF run. Ensure impacts are considered.	“Why change” and “What is the Proposer’s solution?” section
d) Consider if Accelerated Loss of Mains Change Programme (ALoMCP) (£10m of the £44m BSUoS under-recovery) needs to be included in the solution(s).	“What is the Issue” section
e) Consider if recovery via the SF Run should be profiled (based on Settlement Periods from previous year), or a flat recovery taking into account the conclusions of the Balancing Services Taskforce.	“What is the Proposer’s solution?” section

5. The Workgroup is responsible for the formulation and evaluation of any Workgroup Alternative CUSC Modifications (WACMs) arising from Group discussions which would, as compared with the Modification Proposal or the current version of the CUSC, better facilitate achieving the Applicable CUSC Objectives in relation to the issue or defect identified.
6. The Workgroup should become conversant with the definition of Workgroup Alternative CUSC Modification which appears in Section 11 (Interpretation and Definitions) of the CUSC. The definition entitles the Group and/or an individual member of the Workgroup to put forward a WACM if the member(s) genuinely believes the WACM would better facilitate the achievement of the Applicable CUSC Objectives, as compared with the Modification Proposal or the current version of the CUSC. The extent of the support for the Modification Proposal or any WACM arising from the Workgroup’s discussions should be clearly described in the final Workgroup Report to the CUSC Modifications Panel.
7. Workgroup members should be mindful of efficiency and propose the fewest number of WACMs possible.
8. All proposed WACMs should include the Proposer(s)'s details within the final Workgroup report, for the avoidance of doubt this includes WACMs which are proposed by the entire Workgroup or subset of members.

9. There is an obligation on the Workgroup to undertake a period of Consultation in accordance with CUSC 8.20. The Workgroup Consultation period shall be for a period of 15 working days as determined by the Modifications Panel.
10. Following the Consultation period, the Workgroup is required to consider all responses including any WG Consultation Alternative Requests. In undertaking an assessment of any WG Consultation Alternative Request, the Workgroup should consider whether it better facilitates the Applicable CUSC Objectives than the current version of the CUSC.

As appropriate, the Workgroup will be required to undertake any further analysis and update the original Modification Proposal and/or WACMs. All responses including any WG Consultation Alternative Requests shall be included within the final report including a summary of the Workgroup's deliberations and conclusions. The report should make it clear where and why the Workgroup chairman has exercised his right under the CUSC to progress a WG Consultation Alternative Request or a WACM against the majority views of Workgroup members. It should also be explicitly stated where, under these circumstances, the Workgroup chairman is employed by the same organisation who submitted the WG Consultation Alternative Request.

11. The Workgroup is to submit its final report to the Modifications Panel Secretary on **10 May 2021** for circulation to Panel Members. The final report conclusions will be presented to the CUSC Modifications Panel meeting on **10 May 2021**.

## Membership

12. It is recommended that the Workgroup has the following members:

Role	Name	Representing
Chair	Paul Mullen	National Grid ESO – Code Administrator
Technical Secretary	Ren Walker	National Grid ESO – Code Administrator
Proposer	Simon Vicary	EDF Energy
Proposer (Alternate)	Paul Mott	EDF Energy
Workgroup Member	Jenny Doherty	National Grid ESO
Workgroup Member (Alternate)	Keren Kelly	National Grid ESO
Workgroup Member	Matt Cullen	E.ON Energy

Workgroup Member	Paul Youngman	Drax
Workgroup Member	Phil Broom	Engie
Workgroup Member	Grace March	Sembcorp
Workgroup Member	Gareth Evans	Waters Wye Associates
Workgroup Member	Kamila Nugumanova	ESB
Workgroup Member	Paul Jones	Uniper
Workgroup Member	Lauren Jauss	RWE
Workgroup Member	Daniel Parry	Shell Energy UK
Workgroup Member	Joe Dunn	ScottishPower Renewables
Workgroup Member (Alternate)	Ian Steel	ScottishPower Renewables
Workgroup Member	Damian Clough	SSE Generation Ltd.
Workgroup Member (Alternate)	Garth Graham	SSE Generation Ltd.
Workgroup Member	George Moran	Centrica
Authority Representative	Kayt Button	Ofgem

NB: A Workgroup must comprise at least 5 members (who may be Panel Members). The roles identified with an asterisk (\*) in the table above contribute toward the required quorum, determined in accordance with paragraph 14 below.

13. The chairman of the Workgroup and the Modifications Panel Chairman must agree a number that will be quorum for each Workgroup meeting. The agreed figure for this modification is that at least 5 Workgroup members must participate in a meeting for quorum to be met.
14. A vote is to take place by all eligible Workgroup members on the Modification Proposal and each WACM. The vote shall be decided by simple majority of those present at the meeting at which the vote takes place (whether in person or by teleconference). The Workgroup chairman shall not have a vote, casting or otherwise. There may be up to three rounds of voting, as follows:
15. Vote 1: whether each proposal better facilitates the Applicable CUSC Objectives;

16. Vote 2: where one or more WACMs exist, whether each WACM better facilitates the Applicable CUSC Objectives than the original Modification Proposal;
17. Vote 3: which option is considered to BEST facilitate achievement of the Applicable CUSC Objectives. For the avoidance of doubt, this vote should include the existing CUSC baseline as an option.
  - a) The results from the vote and the reasons for such voting shall be recorded in the Workgroup report in as much detail as practicable.
18. It is expected that Workgroup members would only abstain from voting under limited circumstances, for example where a member feels that a proposal has been insufficiently developed. Where a member has such concerns, they should raise these with the Workgroup chairman at the earliest possible opportunity and certainly before the Workgroup vote takes place. Where abstention occurs, the reason should be recorded in the Workgroup report.
19. Workgroup members or their appointed alternate are required to attend a minimum of 50% of the Workgroup meetings to be eligible to participate in the Workgroup vote.
20. The Technical Secretary shall keep an Attendance Record for the Workgroup meetings and circulate the Attendance Record with the Action Notes after each meeting. This will be attached to the final Workgroup report.
21. The Workgroup membership can be amended from time to time by the CUSC Modifications Panel.
