

## **Joint European Standing Group - Terms of Reference Review**

### **1. Background**

- 1.1 The Joint European Standing Group (JESG) is a Panel Committee established jointly by the BSC Panel, the CUSC Modifications Panel and the Grid Code Review Panel. It has been running since August 2011 and the format and content of meetings has evolved during this period.
- 1.2 At its September 2012 meeting the JESG reviewed and reflected on how its work has progressed and any improvements that it might make.

### **2. Revised Terms of Reference**

- 2.1 In light of its deliberations the JESG has identified a small number of revisions that could be made to its Terms of Reference. The updated Terms of reference are set out in the attached document and reflect:
  - Technical Workshops;
  - Ongoing reviews of membership; and
  - Use of actions and issues logs.

### **3. Next Steps**

- 3.1 The JESG Terms of Reference are owned jointly by the BSC Panel, the CUSC Modifications Panel and the Grid Code Review Panel. The updated Terms of Reference are being presented for the approval of each Panel. Any revisions will become effective when all three Panels have agreed the changes to be made.
- 3.2 The BSC Panel approved the revised Terms of Reference at their 11 October Meeting.
- 3.3 The Grid Code Review Panel will be invited to approve the revised Terms of Reference at their November meeting.
- 3.4 The CUSC Modification Panel is invited to approve the revised JESG Terms of Reference at this meeting.
