1. CMP212 Relevant Interruption Claims Report

1.1 Purpose of Relevant Interruption Claims Report

As a result of the implementation of CMP212 – Setting limits for claim: submission, validation and minimum financial threshold values in relation to Relevant Interruptions, it was agreed that the Code Administrator would produce a report to the CUSC Panel detailing information in respect of the Relevant Interruptions received during the reporting period.

This report covers the reporting period from 1st February 2014 to 30th June 2014. These reports will be produced quarterly as of 1st July 2014.

1.2 Summary

Table 1 below gives an overview of the status of the claims received during this reporting period.

Table 1

Claims being processed	Claims Pending Payment	Claims Paid	Claims Rejected	Total Claims Received
4	0	0	1	5

Five claims were received under the CMP212 process within this reporting period.

There are two claims currently being processed. One of these claims has been classed as valid and the value of the claim is currently being calculated. It is yet to be determined whether the second claim is valid or not.

One claim is currently pending payment and one claim has been paid.

One claim was not valid under the CMP212 process and was rejected.

1.3 Additional Detail

Table 2 shows details of individual claims in date order, continuing from the previous report dated 20th February 2014.

Table 2

Claim	Status	Days between claim submission and final letter	Extension to CUSC Section 5.10.6 agreed	Paid Value £k (nearest 5k)
11	Rejected	40	N/A	N/A
12	Valid – being processed	38	N/A	N/A
13	Valid – being processed	41	N/A	N/A
14	Valid – being processed	43	N/A	N/A
15	Claim being processed	N/A	N/A	N/A

1.4 Claims from previous report (Pending or being processed)

Table 3 provides an update of claims from previous reports with the status of pending or being processed that have now been paid.

Table 3

Claim	Status	Days between claim submission and final letter	Extension to CUSC Section 5.10.6 agreed	Paid Value £k (nearest 5k)
9	Valid - Paid	88	No	5k

The one claim from the previous report exceeded the 60 days allowed for National Grid to confirm to the Affected User whether or not an Interruption is a Relevant Interruption and confirm the Interruption Payment value. This was due to an administrative delay and National Grid is using its best endeavours to provide this service within the allowed timeframe going forward.
