

# Code Administrator Meeting Summary

## Meeting Name: CMP298 Workgroup 8

Date: 28 June 2021

## Contact Details

Chair: Paul Mullen

Contact details: [paul.j.mullen@nationalgrideso.com](mailto:paul.j.mullen@nationalgrideso.com)

Proposer: Grahame Neale

Contact details: [grahame.neale@nationalgrideso.com](mailto:grahame.neale@nationalgrideso.com)

## Key areas of discussion

- CMP298 seeks to introduce a more efficient aggregated assessment of Distributed Generators (DG) that have or may have an impact on the National Electricity Transmission System (NETS). This process (known in the industry as the Appendix G process) has been trialled by Network Operators over the last few years and the learning from this will be applied to the CMP298 change. This new process will sit alongside the current process (the Statement of Works process) with a small change being applied to this existing process to clarify that multiple projects can now be applied for at the same time.
- The Workgroup noted that a sub-group had met and this meeting primarily focused on reviewing the legal text was spent reacquainting the Workgroup with previous discussions.
- This was scheduled to be the last meeting before the Workgroup Consultation was issued; however, there were still a number of legal text issues to work through as the Legal text in some places does not appear to be in line with the intent of the proposed change. Therefore, the Chair proposed a revised timeline and this was agreed with Workgroup.
- Further discussion was held on the implementation approach particularly how Grid Supply Points on Appendix G would be transferred across to the terms and conditions of the Transmission Impact Assessment - further thought is needed on how this will be best done but clear there will need to be collaboration between the ESO, DNO and the Transmission Owner.

## Revised Timeline

Milestone	Date	Milestone	Date
Workgroups 1 to 6	Already held – Workgroup 6 was 4 October 2019	Code Administrator Consultation (15 Working Days)	8 November 2021 to 5pm on 29 November 2021
Workgroup 7 – present Product Document, clarify solution, review legal text, review terms of reference	23 February 2021	Draft Final Modification Report (DFMR) issued to Panel	9 December 2021
Workgroup 8 – finalise Product document, review legal text and schedules, implementation approach and discuss Workgroup Consultation Questions	28 June 2021 (10-3pm)	Panel undertake DFMR recommendation vote	17 December 2021
Workgroup 9 – finalise legal text and schedules; finalise Workgroup Consultation	26 July 2021 (12 – 3pm)	Final Modification Report issued to Panel to check votes recorded correctly (5 working days)	20 December 2021
Workgroup Consultation (20 Working Days)	5 August 2021 – 5pm on 3 September 2021	Final Modification Report issued to Ofgem	5 January 2022
Workgroup 10 - Assess Workgroup Consultation Responses, review any request for Alternatives and hold Alternative Vote	15 September 2021 (10 – 2pm)	Ofgem decision	TBC
Workgroup 11 – Confirm Terms of Reference have been met and hold Workgroup Vote	6 October 2021 (10 – 2pm)	Implementation Date	TBC
Workgroup report issued to Panel	21 October 2021	Date changes highlighted in yellow	

## Next Steps

Milestone	Who?	When by?
Updated Legal Text and Schedules sent to Workgroup	Grahame Neale	9 July 2021
Updated Workgroup Consultation sent to Workgroup	Paul Mullen	9 July 2021 (sent 16 July 2021)
Comments on Product Document (already issued), Legal Text, Schedules and Workgroup Consultation	Workgroup	22 July 2021

For further information, please contact Paul Mullen.
