

Headline Report

Meeting Name: CUSC Modifications Panel Meeting

Meeting No: 178

Date of Meeting: 25 September 2015

Venue: National Grid House, Warwick

All presentations given at this Modifications Panel meeting can be found in the Modifications Panel area on the National Grid website¹

This note sets out the headlines and key decisions of the most recent meeting of the CUSC Modifications Panel under the CUSC constitution. Full minutes of the meeting will be produced and approved at the next meeting of the Panel and will then be published on the website.

1) Minutes of Previous Meeting

The minutes from the meeting held on 28 August 2015 were approved subject to changes and will be available on the National Grid website shortly.

2) New CUSC Modification Proposals

CMP253 'Legal text amendments to CUSC to align with CMP235/6 intentions'

CMP253 seeks to amend the wording within Section 11 of the CUSC following implementation of CMP235/CMP236 to ensure the true intention of CMP235/6.

The Panel agreed that CMP253 should be classed as Self-Governance and should proceed directly to Code Administrator Consultation for a period of 15 Working days

3) CUSC Modifications Panel Determination Vote

CMP247 'TNUoS Demand Charges during the implementation of BSC Modification P272 following the approval of BSC Alternative Modification P322'

CMP247 aims to allow all meters which migrate into Measurement Classes E-G to be treated as NHH up until the full charging year after the Implementation date of P272. Those meters which migrated before April 2015 will still have the option to be treated as HH if Suppliers so wish.

The CUSC Panel voted by majority that CMP247 better facilitates the applicable CUSC Objectives and therefore should be implemented. The Final Modification Report will be sent to the Authority on 7th October 2015.

4) Authority Decisions

CMP227 'Change the G:D Split of TNUoS charges, for example to 15:85'
The Authority rejected CMP227.
