

CUSC Modifications Panel Meeting

Headline Report

Meeting Name: Special CUSC Modifications Panel Meeting
Meeting No: 198
Date of Meeting: 15 November 2016
Venue: National Grid House, Warwick

Any Questions?

Contact:
Heena Chauhan
 CUSC Panel Secretary

1 Introduction

Welcome to the Special CUSC Panel Headline Report. This shall be produced after every CUSC Panel meeting and aims to provide all of our key stakeholders / interested parties with an overview of the headlines and key decisions the Panel are currently managing. Full minutes of the meeting will be produced and approved at the next meeting of the CUSC Panel and will then be published on the website.

All presentations given at this Modifications Panel meeting can be found in the Modifications Panel area on the National Grid website¹

We would welcome any comments you may have.

2 Minutes of Previous Meeting

There were no previous minutes to approve.

3 New CUSC Modification Proposals

There were no new modification proposals.

4 CUSC Modifications Panel Recommendation Vote

The Panel voted on 2 modifications:

CMP267 'Defer the recovery of BSUoS costs, after they have exceeded £30m, arising from any Income Adjusting Events raised in a given charging year, over the subsequent two charging years'. CMP267 aims to defer unforeseen increase in BSUoS costs arising from an Income Adjusting Event (IAE) by two years. This proposal only applies to IAE's which, in their total in any given charging year, have a combined effect on "raw BSUoS" of over £30m.

The Panel voted on CMP267 against the Applicable CUSC Objectives. The Panel agreed by majority that the Original Proposal better facilitates the CUSC Objectives.

CMP268 'Recognition of sharing by Conventional Carbon plant of Not-Shared Year-Round circuits' CMP268 proposes to change the charging methodology to more appropriately recognise that the different types of "Conventional" generation do cause different transmission network investment costs, which should be reflected in the TNUoS charges that the different types of "Conventional" generation pays ideally ahead of the December Capacity Auction.

The Panel voted on CMP268 against the Applicable CUSC Objectives. The Panel agreed by majority that the Baseline better facilitates the CUSC Objectives.

5 Authority Decisions

There have been no Authority decisions this month.

6 Next Meeting

The next Panel meeting will take place on 23 November 2016 at National Grid House, Warwick.
