

Headline Report – 31 March 2022

Grid Code Review Panel

The Grid Code Review Panel Headline Report is produced after every Panel and provides an overview of the key decisions made. Minutes for this meeting will be published separately.

Approval of Panel Minutes

Minutes of the Panel meeting held 24 February 2022 were approved.

New Modifications

None.

New / Pending Authority Decisions

The Authority's publication on decisions can be found on their [website](#).

- **GC0138: Compliance process technical improvements (EU and GB User)**
Decision expected 29 April 2022
-

Prioritisation Stack and Inflight modifications

There was no movement on the prioritisation stack.

Updates to the timelines for the following modifications were approved by the Panel: GC0117, GC0146, GC0155, GC0156, GC0141.

An update to the GC0154 Terms of Reference was approved by the Panel.

The status of each modification and the prioritisation stack can be found on our [Modification Tracker](#).

Workgroup Reports

None.

Draft Final Modification Reports

None.

AOB

Whole System Technical Code Update

A member of the steering group gave an update on the work to date and next steps for the Whole System Technical Code Project. More information can be found in the slides within the Panel papers.

April In-Person Panel

The April Grid Code Panel will be held in person and the Panel discussed the arrangements for this.

Sanctions

There was an update regarding Sanctions on Russia, and it was explained that discussions that had been held with CACoP (Code Administration Code of Practice) parties about what affect this might have on codes, and whether code modifications are required to allow for this without parties being in breach of their code requirements. It was suggested that the impact of this on other codes such as the BSC would be more immediate, also as the BSC is not covered by a 'force majeure' clause, which exists for the STC and CUSC, and by extension given that CUSC parties are required to comply with the Grid Code, to the Grid Code. It was confirmed that an urgent code modification (P438) has been raised to introduce the concept of sanctions to the BSC.

Questions or Feedback?

Code Administrator Representative: Jennifer Groome, ESO Code Administrator
