

Code Administrator Meeting Summary

Meeting name: CMP315 Workgroup 10/CMP375 Workgroup 7

Date: 29 March 2022

Contact Details

Chair: Paul Mullen

Contact details: paul.j.mullen@nationalgrideso.com

Proposer (CMP315): Nick Sillito

Contact details: nsillito@peakgen.com

Proposer (CMP375): Grahame Neale

Contact details: grahame.neale@nationalgrideso.com

Key areas of discussion

- CMP315 seeks to review how the expansion constant is determined such that it best reflects the costs and CMP375 seeks to amend the calculation of the Expansion Constant & Expansion Factors to better reflect the growth of and investment in the National Electricity Transmission System (NETS). Workgroups for these changes are jointly held but the changes have not been amalgamated.
- The primary purpose of this meeting was to review any fundamental comments in on the Workgroup Consultation, which is still on course to be issued 12 April 2022. In summary, further clarity on the CMP375 and CMP315 Original solutions was sought to draw out the key components and differences. The Workgroup agreed with the Chair's proposed way forward to finalise the Workgroup Consultation.
- The ESO Workgroup Member also provided an update on progress re: their data request to the onshore Transmission Owners.
