

Code Administrator Meeting Summary

Meeting name: GC0154 Workgroup 4

Date: 16 June 2022

Contact Details

Chair: Sally Musaka

Contact details: Sally.Musaka@nationalgrideso.com

Proposer: Louise Trodden

Contact details: Louise.Trodden@nationalgrideso.com

Key areas of discussion

- GC0154 seeks to provide clarity to stakeholders by incorporating Interconnector ramping requirements into the Grid Code in line with the requirements of SOGL A119.
- The purpose of this Workgroup was to narrow down the 10 solutions which have already been presented to the Workgroup.
- On the timeline, the workgroup raised concerns around the CBA, which is not reflected in the current timeline
- The ESO SME had an open action on the operational analysis. They presented this to the Workgroup, and addressed some questions which were raised in the previous workgroup.
- The Workgroup noted 2 solutions proposed by the ESO: Dynamic and Static. The Workgroup's view is to see the CBA before supporting any of the options or proceeding to workgroup consultation. The ESO asked for feedback and or concerns in relation to the dynamic and static solutions presented.
- The Workgroup agreed that the next meeting will focus on the other solutions and start early discussions around the CBA.
- Also, the workgroup is keen to understand the view of the remote end TSO

Actions

For the full action log, click [here](#).

Action Number	Workgroup raised	Owner	Action	Comment	Due by	Status
1	WG2	Tom Ireland	Review the definition of EA with Ben Marshall	Update was shared at the workgroup. More updates will be provided at the July meeting	April 2022	Open

2	WG2	ESO	ESO to review ramping including BMUs consider this with the FPNs and PNs recorded.	Update on this was this was out of scope	10 May 2022	Completed
3	WG3	Louise Trodden	Collaboration space for ESO and Workgroup members	Louise confirmed this can be provided	10 May 2022	Completed
4	WG3	ESO and Lijia	The ESO to provide some evidence of costs associated with IC ramping	ESO SME presented	End of April 2022	Completed
5	WG3	ESO	The ESO to share some costs related to post and pre gate actions (Due to commercial sensitivity, ESO will consider if and how this can be shared)	TheOperational analysis covered costs	June 2022	Open
6	WG3	Monne D	To check if the costs modelled in relation to imbalance charges can be shared with the workgroup	Update provided	10 May 2022	Completed

Next Steps

- Next workgroup meeting will be on **21 July 2022**. The aim of the meeting will be to discuss the other 6 solutions(in scope) and decide which options/solutions will be included in the CBA

Attendees

Name	Company	Role
Sally Musaka	Code Administrator National Grid ESO	Chair
Rashpal Gata-Aura	Code Administrator National Grid ESO	Technical Secretary
Louise Trodden	Nation Grid ESO	Proposer
Andre Canelhas	Grid Link Interconnector	Workgroup Member
Matthieu Ramet	GE Renewable Energy	Workgroup Member
Lijia Qiu	Nationalgrid Ventures	Workgroup Member
Vera Stam	BritNed	WorkgroupMember (Alternate)
Andrew Larkins	Sygensys	Workgroup Member
Benjamin Marshall	National HVDC centre and SHE Transmission	Workgroup Member
Monne Depraetere	Nemo Link	Workgroup Member
Neil Dewar	Eleclinks	WorkgroupMember (Alternative)
Leo Michelmore	Eleclinks	Workgroup Member
Kick VanHouten	BritNed	Workgroup Member

Eva Krzywkowska	National Grid ESO Control Centre	ESO SME
Mertcan Agir	Ofgem	Observer
James Hill	Ofgem	Observer
Antonio Del Castillo Zas	National Grid ESO Control Centre	ESO SME
Simon Williams	National Grid ESO Control Centre	Observer
Ruby Pelling	National Grid ESO	Observer
