

Headline Report – 23 November 2022

Connection and Use of System Code (CUSC) Special Panel

The CUSC Panel Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

New Modifications

The following new Modification Proposals were presented to the Panel:

CMP406 and CMP407 ‘Allowing consideration of a reduced BSUoS fund for Fixed BSUoS implementation (CMP406 - Section 14; CMP407 – Section 11)’

As per Ofgem’s latest CMP361 consultation, **CMP406/CMP407** is being raised to provide an option for an ex ante fixed BSUoS tariff with a 12 month fixed period, 3 month notice period, and a P85 level BSUoS fund. CMP406 addresses the charging changes and CMP407 addresses the consequential definition changes.

Panel were first asked to assess if **CMP406/CMP407** has substantially the same effect as a Pending CUSC Modification Proposal ([CMP361/CMP362](#)) under CUSC Section 8.16.6¹. As Panel unanimously decided that **CMP406/CMP407** has substantially the same effect as a Pending CUSC Modification Proposal ([CMP361/CMP362](#)), then the Panel directed the Panel Secretary to reject **CMP406/CMP407**.

CMP406 and **CMP407** documentation can be found [here](#)

Questions or feedback?

Code Administrator Representative: Paul Mullen, *Code Administrator*

Panel Secretary: Teri Puddefoot, *Code Administrator*
