

Action No.	Status	Action	Date raised	Owner	Due	Comments and Updates
430	Propose to close	GC0160: a) Confirm timeline for GC0160 post implementation Control Room review. b) Provide feedback on the findings of this review.	22 November 2022	JW		The Control Room completed the Dry Run, defined the process and documented the roles of the relevant teams. A minor change to the IT system was identified to avoid having to use the workaround (established during the Dry Run) and are awaiting approval for the change.
432	In Progress	Review and sense check RES documents and wording on ESO website. Consider whether the controller document under GC0156 should be a RES document or an Electronic Data Communication Facility document.	15 December 2022	JW	-	The ESO Technical Codes Team are planning a full RES review in March and April 2023.
433	Propose to close	ESO to feedback to STC Panel if delaying GC0139: Enhanced Planning-Data Exchange to Facilitate Whole System Planning has any cross code impact	26 January 2023	JW		ESO or ESO Code Admin will raise a STC modification once when it is established that there is a difference between the new proposed requirements and the current STC. The current thinking is that this will be minimal.
434	In Progress	In relation to GCO148, clarity is required as to whether an alternative could be raised following Send back. Update on governance is required from ESO and Ofgem.	26 January 2023	ML and JW		An Ofgem update is anticipated before the end of February 2023.
