

Code Administrator Meeting Summary

Meeting name: CMP398: GC0156 Cost Recovery mechanism for CUSC Parties Workgroup Meeting 5

Date: 13/03/2023

Contact Details

Chair: Banke John Okwesa

banke.john-okwesa@nationalgrideso.com

Proposer: Garth Graham

garth.graham@sse.com

Key areas of discussion

The aim of Workgroup meeting 5 was to finalise the legal text and complete the Workgroup Vote.

Draft Workgroup Report and Draft Legal Text Review

Following a quick review by the ESO Legal Team, PM talked the Workgroup through the suggested amendments to the draft Legal Text, including:

- Replacing 'bilateral connection agreement' with 'bilateral agreement';
- Replacing the "implementation of the first part of the GC0156 Grid Code change package" with "implementation of Grid Code change GC0156", as this means the nominated implementation date for GC0156 and could not be taken to mean the date when the ESRS 72 hour resilience obligations (on Generators) in GC0156 go live, 31/12/2026.
- Including "[...] in accordance with Good Industry Practice, without undue delay taking into account the complexity needed for the development and implementation of a technical solution to meet the GC0156 requirements on a case by case basis." within WACM2.

Indicative Workgroup Vote

The Workgroup confirmed their Workgroup Votes were correct.

Next Steps

- Final Workgroup Report and Legal Text to be circulated ahead of submission to Panel.

Actions

Action number	Workgroup Raised	Owner	Action	Comment	Due by	Status
4	3	GG	Confirm whether an end date for CapEx claims was required			Closed
9	4	Voting Workgroup Members	Send Voting Statements	Awaiting PrM	WG5	Closed
