

2nd Code Administrator Consultation Response Proforma**GC0148: 'Implementation of EU Emergency and Restoration Code Phase II'**

Industry parties are invited to respond to this consultation expressing their views on the proposed solution to address the [Authority Send back](#).

Please send your responses to grid.code@nationalgrideso.com by **5pm on 4 May 2023**. Please note that any responses received after the deadline or sent to a different email address may not receive due consideration.

If you have any queries on the content of this consultation, please contact Milly Lewis Milly.Lewis@nationalgrideso.com or grid.code@nationalgrideso.com

Respondent details	Please enter your details
Respondent name:	Roddy Wilson
Company name:	SSEN Transmission
Email address:	Roddy.Wilson@sse.com
Phone number:	44 (0) 1738 342602

I wish my response to be:

(Please mark the relevant box)

☒ Non-Confidential

☐ Confidential

Note: A confidential response will be disclosed to the Authority in full but, unless agreed otherwise, will not be shared with the Panel or the industry and may therefore not influence the debate to the same extent as a non-confidential response.

For reference the Applicable Grid Code Objectives are:

- a) To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity
- b) Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);
- c) Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole;
- d) To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and
- e) To promote efficiency in the implementation and administration of the Grid Code arrangements

Please express your views in the right-hand side of the table below, including your rationale.

2 nd Code Administrator Consultation questions		
1	Do you believe that the previously consulted GC0148 solutions or the proposed solution to address the Authority Send back better facilitates the Applicable Objectives?	Mark the Objectives which you believe each solution better facilitates:
		Previously consulted GC0148 solutions
		Proposed solution to address the Authority Send back
		Before assessing whether the Grid Code modification better facilitates the Applicable Objectives, it would be beneficial to assess the modification within the context of the corresponding STC modification and any STCP changes to fully understand the impact on Transmission Owners and network requirements.
2	Do you have any other comments?	Yes. Given that Articles of EU Emergency and Restoration Code (E&R) have a Compliance Deadline of 18 th December 2022, it is important that impacts on Transmission owners, the STC, and STCP have been fully assessed by STC Parties to help inform any authority decisions. We recommend that the modification decision process should adequately cater for STC Party input in a timeline that allows Ofgem to have the full picture across both Grid Code and STC.
