

Code Administrator Meeting Summary

Meeting name: CMP392 Workgroup 6

Date: 30/06/2023

Contact Details

Chair: Teri Puddefoot, ESO teri.puddefoot@nationalgrideso.com

Proposer: Garth Graham, SSE Generation garth.graham@sse.com

Key areas of discussion

Alternatives and Voting

Following review pre meeting, Workgroup members had no questions or comments regarding the Alternative 1 (which was presented in workgroup 5) and Alternative 2 presented in Workgroup 6.

The Alternative vote was then carried out to identify the level of support for the options brought forward. Workgroup members voted unanimously for Alternative 2 to become a Workgroup Alternative CUSC modification (WACM) but concluded by majority (5 out of 7) that they did not support Alternative 1.

The Chair made the decision to support Alternative 1 to become a WACM despite the Workgroup vote. The reason given was that the Chair could appreciate both the views of the ESO raising Alternative 1 and the points raised by industry and therefore felt it should proceed as a reasonable option for further consideration alongside both the Original and Alternative 1.

Next Steps

- Next meeting on 4 July will involve the Workgroup Vote.
