Meeting name: CMP392 Workgroup 7

Date: 04/07/2023

Contact Details

Chair: Teri Puddefoot, ESO teri.puddefoot@nationalgrideso.com

Proposer: Garth Graham, SSE Generation garth.graham@sse.com

Key areas of discussion

The aim of Workgroup 7 was to finalise the solution and the alternatives, then participate in voting.

Action Review

The ESO Rep clarified that for Action 1 extra resources would still be required but not as much as originally thought. Training and development would initially be required for the new tasks to be undertaken but this would become less overtime. The Action was closed and confirmed this information would be detailed in the Workgroup Report. Action 3 was closed as legal text had been shared and The Chair agreed to reword Actions 5 and 6 and create Action 7 'Present Schedule 1 to Workgroup'.

Schedule 1 Spreadsheet

A Schedule 1 example was shared with the Workgroup raising several questions. Two Workgroup members expressed concern regarding the differentiation of assets and requested further clarification. One Workgroup member also pointed out that the annual local charge for the company assets had been amalgamated making it impossible to see how these charges would be split. The ESO Rep agreed to take these questions back to the revenue team for further clarification.

Legal Text Review

The legal text for the original was shared and the suggested omission was agreed by the Workgroup. The Proposer explained that this would provide certainty that what is set out in Schedule 1 will not be changed later in the process. No comments were made on the legal text for both WACMs but these would be circulated for Workgroup comments.

Voting

Workgroup members assessed the Original proposal and both WACMs against the relevant CUSC objectives. The Workgroup concluded by majority (5 out of 7) that WACM2 arrangements better facilitate the applicable CUSC objectives than the Baseline.

Next Steps

- ESO Rep to share Schedule 1 and legal text
- Circulate draft Workgroup Report on 7 July
