Commentary

The market was mostly long after early morning, peaking short midday, and from late afternoon onwards. Interconnector Trades were required for Margin between 5am and 7am. In the evening 520MW of STOR was run. Due to high winds BM Actions were required to manage thermal export constraints in the North from morning onwards until the evening. Trades and BM Actions supported RoCoF throughout the day. Overnight Voltage Control supported by Trades and BM Actions in the South/South East, Midlands and Wales areas.
