

Date: **Sunday 04 Apr 2021**

**BSUoS Charge Estimate: £7.12/MWh**  
**Total Outturn: £7.46m**

# Daily Balancing Costs

- BM Cost (Indicative)
- AS Cost (Estimate)

## Commentary

The market was short until 10:30am and mostly long afterwards. Demand was lower than expected through the afternoon. Trades were made for downwards regulation in the afternoon and evening.

Scottish thermal constraints became active at lunchtime and for the remainder of the day. Various trades were made for RoCoF. An optional contract enactment, trades and BM actions were required for voltage management.
