## Commentary

The market was mostly short, with long peaks in the morning prior to 6am and over midday. Interconnector Trades required for Margin between 5am and 6am. Around 310MW of STOR was run over 7pm in the evening. BM Actions alleviated thermal export constraints in Scotland throughout the day, with Trades from midday onwards to assist. Overnight Voltage Control supported by Trades and BM Actions in the South and Wales area. Interconnector Trades throughout the day for RoCoF with BM Actions during the day to support.
