

Date: Sunday 26 Jun 2022

BSUoS Charge Estimate: £16.06/MWh
Total Outturn: £13.21m

Daily Balancing Costs

BM Cost (Indicative)
AS Cost (Estimate)

Commentary

A predominantly short market throughout the day. Interconnector Trades were required for Response throughout the day, and for Margin in the evening. Trades managed thermal import constraints in the South East of England during the morning and from the afternoon to evening. BM Action alleviated thermal export constraints in Scotland from 7am onwards into the night. Overnight Voltage Control supported by Trades and BM Action in the Midlands. BM Action assisted with System Inertia at the start of the day.
