AS Cost (Estimate)

Commentary

A short market overnight to the early hours at the start of the day, and short intermittently during the afternoon and evening. Interconnector Trades were required for Margin during the morning, late afternoon, and late night periods. Trades and BM Action alleviated thermal import constraints in the South East of England in the morning and evening. Trades helped managed thermal export constraints in Scotland from midday onwards. BM Action was also required for thermal export constraints in Scotland during the day, and in the East of England to the late afternoon.
