- AS Cost (Estimate)

### Commentary

The market was short overnight into the morning up to the early afternoon, where it became mostly long from then onwards to late evening. 160MW of Non-BM Fast Reserve was run over the late afternoon period where there was a brief short peak.

Overnight Trades and BM Action for Voltage Control in the Midlands and Greater London areas. Interconnector Trades overnight for RoCoF. Some Trades required between 4pm and 5pm to alleviate thermal export constraints along the South Coast of England, with BM Action managing this between 10am and 6.30pm. BM Action managed thermal import constraints in Scotland over the morning to midday period.
