

Date: **Monday 21 Sep 2020**

BSUoS Charge Estimate: £1.82/MWh
Total Outturn: £1.90m

Daily Balancing Costs

■ BM Cost (Indicative)
 ■ AS Cost (Estimate)

Commentary

The market was mostly long throughout the day, with intermittent short peaks around the morning and early evening. Interconnector Trades for Margin were required between 4pm and 5pm. BM Action was required throughout the day for thermal export constraints in Scotland, and briefly early morning to alleviate thermal import constraints in the South East. BM Action from morning onwards for thermal export constraints in the Wales area. Trades and BM Action overnight for RoCoF.
