**BSUoS Charge Estimate: £5.13/MWh**  
**Total Outturn: £6.72m**

# Daily Balancing Costs

- BM Cost (Indicative)
- AS Cost (Estimate)

## Commentary

A long market overnight, becoming mostly short from midday. Overnight Trades and BM Action supported Voltage Control. Trades to midday, with overnight BM Action, for RoCoF. BM Action alleviated thermal export constraints in the North during the night to the early hours of the morning, and again from late evening. BM Action managed thermal export constraints in the North West and Eastern areas over midday to afternoon. Some Trades needed for localised thermal export constraints in Scotland late night.
