## Commentary

The market was long during the early hours and early morning to 9am, and long again from late afternoon onwards. Interconnector Trades were required for Margin between 5am and midday, and between 3pm and 4pm. Overnight Voltage Control supported by a few BM Actions in Wales and the North West. Some overnight Trades and BM Action for RoCoF. BM Action alleviated thermal export constraints in Scotland from midday, and in the North from late afternoon onwards into the night.
