- Negative Reserve (Footroom)
- Frequency Control (Response + Fast Reserve)
- Other Reserve (Ancillary Costs Only)
- Constraints (BM & Trades only)
- Other (Reactive + Black Start + BM & AS General)

Western Link status: Available

Commentary

A short market to midday, becoming long mostly thereafter. Some Trades and BM Action for overnight Voltage Control. Trades and BM Action overnight for RoCoF. Some Interconnector Trades managed South East import constraints between 7am and 9am. BM Action alleviated thermal export constraints in the North overnight to early morning, and in the East over the evening.
