

Date: **Sunday 12 Feb 2023**

BSUoS Charge Estimate: £4.93/MWh
Total Outturn: £5.77m

Daily Balancing Costs

■ BM Cost (Indicative)
 ■ AS Cost (Estimate)

Commentary

The market position varied but was mostly short through the daytime after 9am. No trades were required.

Constraints were active in Wales for most of the day and briefly in Scotland during the afternoon. All Voltage and System Inertia requirements were met by the market.
