Commentary

A mostly short market throughout the day. Interconnector Trades were required for Margin between 7am and 9am in the morning, and from 3pm to 5pm in the afternoon.

Trades and BM Action supported overnight Voltage Control in the Midlands and South East of England. South East thermal import constraints in England were alleviated by Trades in the early morning and BM Action overnight at the start of the day. BM Action managed thermal export constraints in Scotland and the North of England during the morning.
