Review of Actions Log

All

For reference:

This modification proposes that project developers should submit a LoA with a new Onshore Transmission Connection Application in addition to the existing requirements for that application to be effective.

The LoA will provide confirmation that either:

- a) the project developer has formally engaged in discussions with the landowner(s) in respect of the rights needed to enable the construction of the project on their land (it will not require evidence at that stage that the rights have been granted though this will be required as part of the evidence for milestone M3 “Secure Land Rights” within the Queue Management process introduced under [CMP376](#)).
- b) confirm that the project developer is the landowner(s).

Terms of Reference

| Workgroup Term of Reference | Location in Workgroup Report (to be completed at Workgroup Report stage) |
|--|--|
| a) Consider EBR implications | |
| b) Consider the scope of work identified and whether this is achievable within the timeframe outlined in the Ofgem Urgency decision letter | |
| c) Consider how the solution meets the asks within the Connection Action Plan; re: letter of authority can be robust and efficient. | |
