Non-Confidential (*this will be shared with industry and the Panel for further consideration*)

Confidential (*this will be disclosed to the Authority in full but, unless specified, will not be shared with the Panel or the industry for further consideration*)

For reference the Applicable STC Objectives are:

- a) *efficient discharge of the obligations imposed upon transmission licensees by transmission licences and the Act*
- b) *development, maintenance and operation of an efficient, economical and coordinated system of electricity transmission*
- c) *facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity*
- d) *protection of the security and quality of supply and safe operation of the national electricity transmission system insofar as it relates to interactions between transmission licensees*
- e) *promotion of good industry practice and efficiency in the implementation and administration of the arrangements described in the STC.*
- f) *facilitation of access to the national electricity transmission system for generation not yet connected to the national electricity transmission system or distribution system;*
- g) *compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency.*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions								
1	Please provide your assessment for the proposed solution against the Applicable Objectives?	Mark the Objectives which you believe the proposed solution better facilitates:

Where these costs have been approved by OFGEM, we see there being no risk of stranded assets. This will increase the number of connections that will connect to the network. 4	Do you have any other comments?	We believe this proposal has a positive impact on connecting to our network. Queue management and LOA that has been recently approved ensures that only those customers who are ready to proceed to connection are in the queue and we want to ensure there is no barrier for those customers to connect which we believe there is currently with the large strategic builds that currently are required to be secured against. We wish to see the urgent approval of this mod due to the current barriers to our island customers caused by approved investments that they have to secure against.
