BSUoS Final Tariff: £7.63/MWh
Total Outturn: £6.42m

Daily Balancing Costs

■ BM Cost (Indicative)
 ■ AS Cost (Estimate)

Commentary

The market was alternating between long and short throughout the day. No trades were required for Downward Regulation or Margin. BM Actions helped manage thermal constraints in Scotland throughout most of the day. Trades also helped to manage thermal constraints in Southern England at the end of the day. Trades and BM Actions supported Voltage Control and further BM Actions supported System Inertia.
