## **CMP 223 (Arrangements for Relevant Distributed Generators under the Enduring User Commitment) (Original): Summary Sheet of Proposed Amendments**

### **1. Overview of Changes**

- 1.1 The changes in the legal drafting that are being proposed to implement CMP 223 consist in changing the arrangements for the “Cancellation Charge” so that (a) in the context of Distributed Generation the liability and security for the Cancellation Charge rests with that Distributed generation and not with the DNO and (b) provide a separate % determining the Cancellation Secured Amount for Distributed Generation) .
- 1.2 In summary the drafting consists of changes to:
  1. Edits to CUSC Section 1
  2. Edits to CUSC Section 5 (by summary)
  3. Edits to CUSC Section 6 (by summary)
  4. Edits to CUSC Section 10 (houses the transitional provisions that apply to those Users or prospective Users)
  5. Edits to CUSC Section 11 (by summary)
  6. Edits to CUSC Section 15 (User Commitment Methodology).
  7. Edits to CUSC Exhibit J (Modification Offer) (by summary)
  8. Edits to CUSC Exhibit Q (BELLA Application) (by summary)
  9. Edits to CUSC Exhibit R (BELLA Offer)
  10. Edits to CUSC Exhibit U (Request for a Statement of Works) (by summary)
  11. Edits to CUSC Schedule 2 Exhibit 3 (Construction Agreement)
  12. Edits to CUSC Schedule 2 Exhibit 5 (BELLA)
  13. Introduces a new exhibit to Schedule 2, Exhibit 7(Bilateral Cancellation Charge Agreement).

CUSC - SECTION 1

APPLICABILITY OF SECTIONS AND RELATED AGREEMENTS STRUCTURE

1.1 INTRODUCTION

- 1.1.1 The **CUSC** is divided into different sections, including sections dealing specifically with **Connection** to and **Use of System**, the provision of **Balancing Services**, **Interconnectors** and other sections of more general application.
- 1.1.2 Compliance with the various sections by a **User** is dependent on the nature of that **User's** connection and/or use in any given instance. A **User** may be party to the **CUSC** in a number of different categories.
- 1.1.3 This Section also deals with the requirement for a **User** to enter into **Bilateral Agreements**, **Construction Agreements** and **Mandatory Services Agreements**.
- 1.1.4 The **CUSC** and the proforma **Bilateral Agreements** set out as Exhibits 1, 2 and 5 of Schedule 2 are drafted to reflect the standard terms in relation to **The Company's** charges (an indicative price agreement). Where a **User** chooses to have a different charging option, where provided for in the **Charging Statements** current at the time of application for the relevant **Bilateral Agreement**, that **Bilateral Agreement** will provide for the specific terms relating to the charging option and for the relevant paragraphs of Section 2 to apply (or be disapplied) subject to those specific terms. This may lead to the areas covered by the relevant **Bilateral Agreement** being wider in certain circumstances.

1.2 APPLICABILITY

- 1.2.1 Each **User** is required to comply with the various Sections of the **CUSC** as provided for in this Section 1. Each Section may contain further detail in relation to particular categories of connection and/or use.
- 1.2.2 The different categories of connection and/or use reflect the types of utilisation which can exist. For example a **User** could have a directly connected **Power Station** and also be acting as a **Supplier**. In that case that **User** will need to comply in relation to two categories of connection and/or use, and its obligations in relation to each will differ.
- 1.2.3 Section 1, Sections 5 to 8 and 11 of the **CUSC** apply to all categories of connection and/or use, and therefore should be

**CMP223 ORIGINAL**

complied with by all **Users**, subject as specifically provided in those Sections. Section 4 of the **CUSC** applies to **Users** who provide **Balancing Services** to **The Company**, and contains its own provisions on applicability to such **Users**.

1.2.4 In relation to Sections 2, 3, 9 and 15 the following table sets out the applicability of those Sections in addition to those Sections referred to in Paragraph 1.2.3:

	<b>Categories</b>	<b>Applicable Sections</b>
1.	<b>Power Station</b> directly connected to the <b>GB Transmission System</b>	2 and 3 and 15
2.	<b>Non-Embedded Customer Site</b>	2 only
3.	<b>Distribution System</b> directly connected to the <b>GB Transmission System</b>	2 only and, where a <b>Construction Agreement</b> is associated with <b>Distributed Generation</b> , 15
4.	<b>Suppliers</b>	3 only

7.	<b>Interconnector User</b>	9 Part II only
8.	<b>Interconnector Error Administrator</b>	9 Part II only

12.	<u><b>Relevant Embedded Medium Power Stations and Relevant Embedded Small Power Stations with an Associated DNO Construction Agreement.</b></u>	<u>15 only</u>

## CMP223 ORIGINAL

**Users**, when making a **Connection Application** or **Use of System Application** (in each case in the form of the relevant exhibit), should identify the category for which they are applying.

- 1.2.5 Each **Bilateral Agreement, Use of System Supply Confirmation Notice** or **Use of System Interconnector Confirmation Notice**, will set out the category of connection and/or use to which it relates.
- 1.2.6 Where a Paragraph states a category of connection and/or use, or type of **User**, to which that Paragraph (or part of that Paragraph) applies, the application of that Paragraph (or part of Paragraph) shall be limited to the **User** in relation to that category of connection and/or use, or type of **User**, described.
- 1.2.7 Where a Paragraph does not state a category of connection and/or use, or type of **User**, to which that Paragraph (or some part of that Paragraph) applies, that Paragraph (or part of the Paragraph) shall apply to all types of **Users** and categories of connection and/or use.
- 1.2.8 Where a Paragraph is stated “as between **The Company** and that **User**”, rights and obligations under that Paragraph shall arise only between **The Company** and each **User** individually to whom that Paragraph applies. Accordingly, no **User** shall enjoy any rights nor incur any obligations against any other **User** pursuant to the terms of any such Paragraph.
- 1.2.9 Notwithstanding any other provision of this **Code**, where a **User** owns or operates an **Exemptable Embedded Large Power Station** which is **Embedded** in part of a **Distribution System** or the **System** of any other **User** where and to the extent that such part of the system in which the **Exemptable Embedded Large Power Station** is **Embedded** is not directly or indirectly connected to the **GB Transmission System**, that **User** need not comply with paragraphs 1.3, 1.7, 6.3.6 and 6.3.7 in respect of that **Exemptable Embedded Large Power Station**.

### 1.3 BILATERAL AGREEMENTS, CONSTRUCTION AGREEMENTS AND MANDATORY SERVICES AGREEMENTS

#### 1.3.1 Bilateral Agreements

- (a) Each **User** in respect of each category of connection and/or use with a direct connection to the **GB Transmission System** shall enter into and comply with a **Bilateral Connection Agreement** in relation to such connection and/or use as identified in Paragraph 1.3.1(d).

**CMP223 ORIGINAL**

(b) Each **User** in respect of each category of connection and/or use with an **Embedded Power Station** (except those which are the subject of a **BELLA**) and/or in relation to a **Small Power Station Trading Party** and/or a **Distribution Interconnector** shall enter into and comply with a **Bilateral Embedded Generation Agreement** in relation to such use as identified in Paragraph 1.3.1(d).

(c) Each **User** in respect of its **Embedded Exemptable Large Power Station** whose **Boundary Point Metering System** is registered in **SMRS** or is registered in **CMRS** by another **User** who is responsible for the **Use of System Charges** associated with the **BM Unit** registered in **CMRS** shall enter into and comply with a **BELLA** as identified in Paragraph 1.3.1(e).

Deleted: d

(d) Each Relevant Embedded Small Power Station or Relevant Embedded Medium Power Station where there is an Associated DNO Construction Agreement shall enter into and comply with a Bilateral Cancellation Charge Agreement as identified in Paragraph 1.3.1(e).

(iv) Exhibit 7– Bilateral Cancellation Charge Agreement.

1.3.2 Construction Agreements

Each **User** who wishes to construct or modify a direct connection to the **GB Transmission System** or commence or modify use by his **Embedded Power Station** or **Distribution Interconnector**, or any **Distributor** who wishes to connect a **Relevant Embedded Medium Power Station** or **Relevant Embedded Small Power Station** to his system shall enter into and comply with a **Construction Agreement** in respect of any construction works required as a result of that connection or **Modification**, together with a **Bilateral Agreement** as identified in Paragraph 1.3.1 or, as appropriate, an agreement to vary such **Bilateral Agreement**. In any case under the **OTSDUW Arrangements**, paragraph 1.5 applies to such **Construction Agreement**.

1.3.3 Mandatory Services Agreements

- (a) **The Company** and each **User** if a **Generator** shall, as between **The Company** and that **User**, in respect of the **Generating Units, DC Converters** and **Power Park Modules** from which that **User** is required to provide the **Mandatory Ancillary Services** in accordance with the **Grid Code**, enter into and comply with a **Mandatory Services Agreement** where applicable in accordance with Paragraph 1.3.3(b) in a form to be agreed between **The Company** and that **User** but based substantially on the form set out in Exhibit 4 in Schedule 2 (with necessary changes to enable the operation of those provisions, and those in Section 4 and Schedule 3 where the **Generating Units, DC Converters** or **Power Park Modules** (as the case may be) are not registered as **BM Unit(s)**).
- (b) Each **User** and **The Company** shall, as between **The Company** and that **User**, not later than 6 months (or such lesser time as may be agreed) prior to the expected **Commissioning Programme Commencement Date**, have entered into a **Mandatory Services Agreement** providing for payment for **Mandatory Ancillary Services** to be supplied by the **User** to **The Company**. In the event of a **Mandatory Services Agreement** not having been entered into by the said date, either party shall be entitled to initiate the procedure for resolution of the issue as an **Other**

## CMP223 ORIGINAL

**Dispute** in accordance with Paragraph 7.4 to settle the terms of the said **Mandatory Services Agreement**. **The Company** shall not **Energise** the **User's Equipment** or in the case of an **Embedded Power Station** issue an **Operational Notification** until the said **Mandatory Services Agreement** shall have been entered into by both parties.

### 1.3.4 General Provisions

- (a) **Bilateral Agreements** and **Construction Agreements** which are entered into between **The Company** and **Users** shall be in or substantially in the relevant exhibited form of **Bilateral Agreement** and/or **Construction Agreement** unless the parties thereto agree otherwise.
- (b) Each and every **Bilateral Agreement**, **Mandatory Services Agreement** and **Construction Agreement** entered into by a **User** and in force from time to time shall constitute a separate agreement governed by the terms of the **CUSC** and will be read and construed accordingly. For the avoidance of doubt no **User** shall enjoy any rights nor incur any obligations against any other **User** pursuant to the terms of any **Bilateral Agreement**, **Mandatory Services Agreement** or **Construction Agreement**.

## 1.4 CONNECT AND MANAGE ARRANGEMENTS

1.4.1 Any **Offer** or **Modification Offer** made to an **Applicant** or **User** in the category of:

- (a) a **Power Station** directly connected to the **National Electricity Transmission System**; or
- (b) an **Embedded Power Station** which is the subject of a **Bilateral Embedded Generation Agreement** or a **Bilateral Embedded Licence Exemptable Large Power Station Agreement**; or
- (c) where such **Offer** or **Modification Offer** is associated with **Distributed Generation**, a **Distribution System** directly connected to the **National Electricity Transmission System**,

shall be offered on the basis of the **Connect and Manage Arrangements**.

### 1.4.2 Transitional Arrangements

## CMP223 ORIGINAL

The **Company** shall as soon as reasonably practical after the **Connect and Manage Implementation Date** and in any event by the end of the **Connect and Manage Transition** issue:

- (a) a revised **Offer** on the basis of the **Connect and Manage Arrangements** as regards any **Offer** issued but not accepted pursuant to the **Interim Connect and Management Arrangements**
- (b) an offer to vary each **Existing ICM Construction Agreement** such that it is in a form and on terms consistent with a **Construction Agreement** entered into on the basis of the **Connect and Manage Arrangements**; and/or
- (c) a **Modification Offer** as regards any **Bilateral Agreement** entered into on the basis of the **Interim Connect and Manage Arrangements** which would require amendments in order to comply with the **Connect and Management Arrangements**,

in each case on terms no less advantageous than those contained in offers made or agreements entered into pursuant to the **Interim Connect and Manage Arrangements**. The **Applicant** or **User** (as appropriate) shall be entitled to accept such a proposal or continue with its existing arrangements.

## 1.5 OTSDUW ARRANGEMENTS

- 1.5.1 Any **Offer** or **Modification Offer** made to an **Applicant** in respect of a **New Connection Site** located in **Offshore Waters** shall, unless the **Applicant** indicates otherwise, be made on the assumption that the **User** (following agreement with **The Company**) will undertake **Offshore Transmission System Development User Works** (including construction and installation). For the avoidance of doubt, this shall not prevent the **Applicant** and **The Company** from agreeing (prior to signing the **Construction Agreement**) that the scope of **OTSDUW** will be narrower than that set out in the **Offer** or that **OTSDUW** will not be undertaken by the **User**.
- 1.5.2 Provisions of the **CUSC** which apply in relation to **OTSDUW** and **OTSUA**, and/or a **Transmission Interface Site**, shall (in any particular case) apply up to the **OTSUA Transfer Time**, whereupon such provisions shall (without prejudice to any prior non-compliance) cease to apply, without prejudice to the continuing application of provisions of the **CUSC** applying in relation to the relevant **Offshore Transmission System** and/or **Connection Site**.

## **CMP223 ORIGINAL**

### **1.6 CATEGORIES OF USE WITHOUT BILATERAL AGREEMENTS**

- 1.6.1 Three categories of use of the **GB Transmission System** do not require a **Bilateral Agreement** to be entered into as all the relevant provisions are included in the **CUSC** itself. These relate to **Suppliers, Interconnector Users** and **Interconnector Error Administrators** who in those categories of connection and/or use have no physical presence on the system. Further provisions on this are contained in Section 3 and Section 9 Part II.

### **1.7 BELLA APPLICATION**

- 1.7.1 A **User** in respect of its **Embedded Exemptable Large Power Station** whose **Boundary Point Metering System** is registered in **SMRS** (or who intends to so register) or in **CMRS** by a **User** who is responsible for the **Use of System Charges** associated with the **BM Unit** registered in **CMRS** (or who intends to so register), shall complete and submit to **The Company** a **BELLA Application** and comply with the terms thereof.
- 1.7.2 **The Company** shall make a **BELLA Offer** to that **User** as soon as practicable after receipt of the **BELLA Application** and (save where the **Authority** consents to a longer period) in any event not more than 3 months after receipt by **The Company** of the effective **BELLA Application**. The **BELLA Offer** shall be in the form of a **BELLA**.
- 1.7.3 The **BELLA Offer** shall remain open for acceptance for 3 months from its receipt by that **User** unless either that **User** or **The Company** makes an application to the **Authority** under Paragraph 1.7 of the **CUSC**, in which event the **BELLA Offer** shall remain open for acceptance until 14 days after any determination by the **Authority** pursuant to such application.
- 1.7.4 Upon acceptance of the **BELLA Offer** (as offered by **The Company** or determined by the **Authority**) by the **User** and execution by **The Company**, the **User's** rights and obligations pursuant thereto shall commence in accordance with its terms. Such rights and obligations shall continue until the **BELLA** is terminated.
- 1.7.5 A **User** who is required by this Paragraph 1.7 to submit a **BELLA Application** shall not energise or operate its **Embedded Exemptable Large Power Station** until it has entered into a **BELLA** with **The Company** and until **The Company** has issued the **User** with an **Operational Notification** in accordance with the terms of the **BELLA**.

## 1.8 AUTHORITY'S RIGHT TO DETERMINE IN RESPECT OF A BELLA

- 1.8.1 If, after a period which appears to the **Authority** to be reasonable for the purpose, **The Company** or the **User** have failed to enter into a **BELLA** in respect of the **Embedded Exemptable Large Power Station** either **The Company** or the **User** may apply to the **Authority** for the **Authority** to settle any terms of the **BELLA Offer** in dispute.
- 1.8.2 Upon such application, the **Authority**, pursuant to section 7 (3) (c) of the **Act**, may settle any terms in dispute between **The Company** and the **User** in respect of such **BELLA** in such manner as appears to the **Authority** to be reasonable having (in so far as relevant) regard in particular to the following considerations:
- (a) that the performance by **The Company** of its obligations under the **BELLA** should not cause it to be in breach of those provisions referred to at paragraph 5 of Standard Condition C8 of the **Transmission Licence**;
  - (b) that any methods by which **The Company's** transmission system is connected to any other **System** for the transmission or distribution of electricity accord (insofar as applicable to **The Company**) with the **Grid Code**, the **STC** and the **Distribution Code**;
  - (c) that the terms and conditions of the **BELLA** so settled by the **Authority** and of any other agreements entered into by **The Company** pursuant to Paragraph 1.7 should be in as similar a form as is practicable.
- 1.8.3 Where the **Authority** settles any terms in dispute, the **User** and **The Company** shall forthwith enter into the **BELLA** as settled.
- 1.8.4 If either the **User** or **The Company** proposes to vary the terms of the **BELLA** in a manner provided for under such agreement, the **Authority** may, at the request of **The Company** or the **User**, settle any dispute relating to such variation in such manner as appears to the **Authority** to be reasonable.

## PART TWO CALCULATION OF CANCELLATION CHARGE

Deleted: -----Page Break-----  
¶

- 1.1 The **Cancellation Charge** payable shall be calculated in accordance with this Part Two of Section 15.
- 1.2 Value Added Tax will be payable on any **Cancellation Charge**.
- 2 **Completion Date and Trigger Date**
- 2.1 In making an **Offer** to a **User** (including the Offer of an Associated DNO Construction Agreement) The Company will consider the **Construction Works** and **Construction Programme** associated with that **Offer** and taking into account the nature and programming of the **Construction Works** and the **Consents** associated with this will identify dates in the **Construction Agreement** as the **Completion Date**.
- 2.2 The **Trigger Date** will be (a) the 1 April which is three **Financial Years** prior to the start of the **Financial Year** in which the **Charging Date** occurs or (b) where the **Charging Date** is less than three **Financial Years** from the date of the **Construction Agreement**, the date of the **Construction Agreement** (in which case the **Financial Year** in which such date falls is the relevant **Financial Year** within the **Cancellation Charge Profile** working back from the **Charging Date**).
- 2.3 The **Trigger Date** is the date from which the **Wider Cancellation Charge** applies and the date from which, in the case of the **Fixed Cancellation Charge**,

## CMP223 ORIGINAL

the **Fixed Attributable Works Cancellation Charge** rather than the **Pre Trigger Amount** applies. Prior to the **Trigger Date**, only the **Attributable Works Cancellation Charge** applies, or in case of the **Fixed Cancellation Charge**, the **Pre Trigger Amount** applies.

### 2.4 Changes to Construction Programme or Construction Works or Transmission Entry Capacity or Developer Capacity

2.4.1 Where the **Construction Programme** or the **Construction Works** or **Transmission Entry Capacity** or **Developer Capacity** subsequently changes from that in the original **Construction Agreement** the following principles will apply in respect of reassessing the **Trigger Date** and the **Cancellation Charge**.

2.4.2 Where such change is as a result of **The Company's** exercise of its rights under the **Construction Agreement** then:

- (i) Where there is a delay to the **Completion Date** and the **Trigger Date** has not passed, the **Trigger Date** will be revised by reference to the revised **Completion Date**. The period for which the **Pre Trigger Amount** applies, will be adjusted to reflect the new **Trigger Date**;
- (ii) Where there is a delay to the **Completion Date** and the **Trigger Date** has passed, the **Trigger Date** will be revised by reference to the revised **Completion Date** and the **Cancellation Charge** (including the **Cancellation Charge Profile**) will be adjusted to reflect the revised date.
- (iii) In the case of a **Fixed Cancellation Charge**, a change in the **Attributable Works** will not adjust the **Cancellation Charge Profile** unless the **Completion Date** has also changed in which case (ii) above will apply.

2.4.3 Where a change is as a result of the **User's** request then, notwithstanding any change in the **Completion Date**;

- (i) Where there is a delay to the **Completion Date** and the **Trigger Date** has not passed, the **Trigger Date** will be revised by reference to the revised **Completion Date**. The period for which

the **Pre Trigger Amount** applies, will be adjusted to reflect the new **Trigger Date**;

- (ii) Where there is a delay to the **Completion Date** and the **Trigger Date** has passed, the **Trigger Date** will not be revised by reference to the revised **Completion Date** and the **Cancellation Charge** will not be adjusted downwards but will be held at that level and will increase from that level in line with any new **Construction Programme**.

### 3 Calculation of Cancellation Charge

3.1 The **Cancellation Charge** is the charge due to **The Company** by a **User** on termination of a **Construction Agreement**, **Disconnection** or a reduction in **Transmission Entry Capacity** or **Developer Capacity** prior to the **Charging Date** and **Disconnection** or a reduction in **Transmission Entry Capacity** on or after the **Charging Date**.

3.2 This calculation of the **Cancellation Charge** is different:

- (a) where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced before the **Trigger Date** (the “**Pre Trigger Amount**” or “**Actual Attributable Works Cancellation Charge**”) (Paragraphs 3.6.1 and 3.7);
- (b) where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** (the “**Fixed Attributable Works Cancellation Charge**” or “**Actual Attributable Works Cancellation Charge**” and the “**Wider Cancellation Charge**”) (Paragraphs 3.5 to 3.8);
- (c) depending whether the **Attributable Works Cancellation Charge** is a **Fixed Cancellation Charge** or **Actual Attributable Works Cancellation Charge** (Paragraphs 3.5 to 3.7);

- (d) where the **Transmission Entry Capacity** is reduced or **Disconnection** occurs on or after the **Charging Date** (the "**Wider Cancellation Charge**") (Paragraph 3.8).

**3.3 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced before the Trigger Date**

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced before the **Trigger Date** the **Cancellation Charge** shall be calculated as follows:

***Cancellation Charge = Attributable Works Cancellation Charge***

**3.4 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced on or after the Trigger date but prior to the Charging Date**

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the Trigger date but prior to the **Charging Date** the **Cancellation Charge** shall be calculated as follows:

***Cancellation Charge = Attributable Works Cancellation Charge plus Wider Cancellation Charge***

The following Paragraphs set out in detail the **Attributable Works Cancellation Charge** and **Wider Cancellation Charge** and Paragraph 3.7 sets out the above calculation by formula.

**3.5 Attributable Works Cancellation Charge**

The **Attributable Works Cancellation Charge** can be either the **Fixed Cancellation Charge** or **Actual Attributable Works Cancellation Charge**.

**3.6 Fixed Cancellation Charge**

## CMP223 ORIGINAL

The calculation of the **Fixed Cancellation Charge** is different where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced before (“**Pre Trigger Amount**”) or on or after the **Trigger Date** (“**Fixed Attributable Works Cancellation Charge**”).

### 3.6.1 Pre Trigger Amount

Should a **Construction Agreement** be terminated, or **Transmission Entry Capacity** be reduced or **Developer Capacity** be reduced before the **Trigger Date** the **Fixed Cancellation Charge** is the **Pre Trigger Amount** calculated as a £/MW figure by reference to the **Cancellation Charge Profile** and derived in accordance with the formula at Paragraph 3.9 and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 7:

### 3.6.2 Fixed Attributable Works Cancellation Charge

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** the **Fixed Cancellation Charge** is the **Fixed Attributable Works Cancellation Charge** calculated as follows:

***Fixed Attributable Works Cancellation Charge = (Attributable Works Cancellation Amount x MW Reduction in Transmission Entry Capacity or Developer Capacity) x Cancellation Charge Profile***

*Where the Attributable Works Cancellation Amount results in a £/MW figure calculated as follows:*

***(Estimated Attributable Works Capital Cost x (1 – Local Asset Reuse Factor) x Strategic Investment Factor x Distance Factor) / Transmission Entry Capacity or Developer Capacity***

*Where the Estimated Attributable Works Capital Cost is the fair and reasonable estimate of the Attributable Works Capital Cost for each component within the Attributable Works and which is as set out in the*

## CMP223 ORIGINAL

*Notification of Fixed Cancellation Charge* by reference to which an election is made in accordance with Paragraph 6.

Where the **Attributable Works** are as specified in Appendix MM of the **Construction Agreement** at the time of the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

Where the **Local Asset Reuse Factor** is the factor representing the potential for reuse of each component within the **Attributable Works** as set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

Where the **Strategic Investment Factor** is a factor calculated for each component within the **Attributable Works** as a ratio of the **Transmission Entry Capacity** and/or **Developer Capacity** sharing those **Attributable Works** against the secured capability of the **Transmission** assets and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

Where the **Distance Factor** is a factor calculated for each component within the **Attributable Works** as a ratio of distance to the nearest suitable MITS substation and distance to the MITS substation where the **Attributable Works** connect as set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6. This factor is only valid for components where distance is relevant i.e. cables and overhead lines.

Where the **Cancellation Charge Profile** is the profile derived in accordance with the formula at Paragraph 3.10 and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

- 3.6.3** The **Pre Trigger Amount** and the **Attributable Works Cancellation Amount** (and the factors used in deriving this) and the **Cancellation Charge Profile** are fixed at the time an election is made in accordance with Paragraph 7 and the **Pre Trigger Amount** and **Attributable Works Cancellation Amount** are not

subject to any further specific adjustment, reconciliation or credit should any of the **Transmission** assets resulting from the **Attributable Works** be reused or of benefit to other **Users**.

### 3.7 Actual Attributable Works Cancellation Charge

3.7.1 The **Actual Attributable Works Cancellation Charge** is the **Attributable Works Capital Cost** in respect of each component within the **Attributable Works** at the time at which the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced including (a) fees, expenses and costs properly payable by **The Company** in respect of, or arising from the termination by **The Company** or any third party of any contract for or relating to the carrying out of any of the **Attributable Works** provided it is negotiated on an arms length basis (including any such arising under the **STC**) and (b) a sum equal to the reasonable costs of removing any **Transmission Connection Assets** and of making good the remaining **Plant** and **Apparatus** following such removal and (c) proper and reasonable expenses incurred and or paid or which **The Company** is legally bound to incur or pay in seeking **Consents** for the **Attributable Works** and (d) interest on any such amounts from the date they were paid by **The Company** to the date of **The Company's** invoice at 2% over **Base Rate** from time to time and for the time being provided that in each case **The Company** shall take into account the **Local Asset Reuse Factor**, the **Strategic Investment Factor** and the **Distance Factor** as calculated in paragraph 3.6.2, of the **Attributable Works** and any of the resulting **Transmission** assets.

3.7.2 In the case of the **Actual Attributable Works Cancellation Charge**, on termination of the **Construction Agreement** or reduction in **Transmission Entry Capacity** or **Developer Capacity** prior to the **Charging Date**, **The Company** shall be entitled to invoice the **User** for a sum equal to **The Company's** fair and reasonable estimate of the **Actual Attributable Works Cancellation Charge** and so (a) in the case of termination, the **User** shall pay to **The Company** on account of the **Actual Attributable Works Cancellation Charge** a sum equal to the estimate of **Actual Attributable Works Cancellation Charge** as shown in the **Cancellation Charge Statement** for the period in which the termination occurs and (b) in the case of a reduction in **Transmission Entry Capacity** or **Developer Capacity**, a sum by reference to

## CMP223 ORIGINAL

the MW reduction based on the £/MW figure derived from the estimate of **Actual Attributable Works Cancellation Charge** as shown in the **Cancellation Charge Statement** for the period in which the termination occurs. These will then be subject to reconciliation in accordance with this Section 15 Part Four.

### 3.8 Wider Cancellation Charge

The **Wider Cancellation Charge** results in a £/MW charge calculated as follows:

***Zonal Unit Amount*** x (MW of reduction in **Transmission Entry Capacity** or **Developer Capacity**) x **Cancellation Charge Profile**

The **Zonal Unit Amount** is a £/MW figure calculated by reference to the **Generation Zone** in which the **Power Station** is to be located as set out in the **Cancellation Charge Statement**. It is calculated by reference to the **Annual Wider Cancellation Charge Statement** for the **Financial Year** in which notice of reduction in **Transmission Entry Capacity** or **Developer Capacity** is given and/or notice of **Disconnection** is given or, where in the case of an **Event of Default** where notice is not given, the **Financial Year** in which the reduction in **Transmission Entry Capacity** or **Developer Capacity** or **Disconnection** occurs.

*Where the **Zonal Unit Amount** = Load Related Boundary Capex apportioned to Boundaries by Boundary (LR) Level and Non Load Related Boundary Capex apportioned to Boundaries by Boundary (NLR) Level, summated and multiplied by Boundary Non Compliance Factors and then mapped to Generation Zones and divided by the Wider User Commitment Liability Base, excluding those Power Stations in respect of which a Construction Agreement has terminated or The Company has been notified of a reduction in the Transmission Entry Capacity or Developer Capacity or Disconnection within the period in question.*

*Where **Load Related Boundary Capex** is the capex required to increase capability in the network as determined by The Company for a given Financial Year, excluding any Attributable Works Capital Cost, multiplied by the User*

**CMP223 ORIGINAL**

***Risk Factor and the Global Asset Reuse Factor, as set out in the Annual Wider Cancellation Charge Statement.***

***Where Non Load Related Boundary Capex is the capex required to maintain capability in the network as determined by The Company for a given Financial Year, excluding any Attributable Works Capital Cost, multiplied by the User Risk Factor and the Global Asset Reuse Factor, as set out in the Annual Wider Cancellation Charge Statement.***

***Where the User Risk Factor is the share of total risk between generation and consumers, set at 0.5.***

***Where the Global Asset Reuse Factor for a given Financial Year is as set out in the Annual Wider Cancellation Charge Statement.***

***Where the Boundaries are as detailed in Section 8 of the Seven Year Statement.***

***Where Boundary (LR) Level is the depth of each Boundary as determined by The Company multiplied by the increase in required capability on that Boundary over the forthcoming four year period, as set out in the Seven Year Statement.***

***Where Boundary (NLR) Level is the depth of each Boundary as determined by The Company multiplied by the available capability on that Boundary in the year in question, as set out in the Seven Year Statement.***

***Where Boundary Non Compliance Factors are the ratio between the available capability and required capability on each Boundary as detailed in Section 8 of the Seven Year Statement, capped at 100%.***

***Where Generation Zones are (a) as defined in the Seven Year Statement for the Financial Year in which the termination or reduction in Transmission Entry Capacity or reduction in Developer Capacity occurs prior to the Charging Date (or where not so defined as set out in the relevant Cancellation Charge Statement) or (b) as defined in the Seven Year Statement for the Financial Year in which the notice of Disconnection or***

reduction in **Transmission Entry Capacity** occurs on or after the **Charging Date**.

Where the **Wider User Commitment Liability Base** is the total amount of generation in MW liable for the **Wider Cancellation Charge** in the year in question and the total amount of generation in MW which will become liable for the **Wider Cancellation Charge** in the year in question and set out in the **Annual Wider Cancellation Charge Statement**.

Where the **Cancellation Charge Profile** is the profile derived in accordance with the formula at Paragraph 3.10 or 3.11, as appropriate.

### 3.9 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced before the Trigger Date

Should a **Construction Agreement** be terminated, or **Transmission Entry Capacity** be reduced or **Developer Capacity** be reduced before the **Trigger Date** the **Cancellation Charge** shall be calculated as follows:

*Cancellation Charge = Either the Actual Attributable Works Charge or, where on the Fixed Attributable Works Cancellation Charge, a charge calculated as follows:*

*Reduction in Transmission Entry Capacity or Reduction in Developer Capacity x Pre Trigger Amount<sub>t</sub>*

Where:

- *Transmission Entry Capacity /Developer Capacity expressed in MW.*
- *Termination of Construction Agreement equates to a reduction in Transmission Entry Capacity or Developer Capacity to zero*
- *Pre Trigger Amount<sub>t</sub> which varies according to the number of Financial Years from the date of the Construction Agreement to the Trigger Date:*
  - *up to the end of the first Financial Year (i.e. t =1), the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£1000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*
  - *Where t = 2, the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£2000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*
  - *Where t ≥ 3 up to Trigger Date, the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£3000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*

**3.10 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced on or after the Trigger Date but prior to the Charging Date**

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** a **User** shall pay the **Cancellation Charge** calculated as follows:

*Cancellation Charge = the sum of (a) Fixed Attributable Works Cancellation Charge or Actual Attributable Works Cancellation Charge and (b) Wider Cancellation Charge*

- (a) *Either the Actual Attributable Works Charge or, where on the Fixed Attributable Works Cancellation Charge, a charge calculated as follows:*

Where:

- *Termination of Construction Agreement equates to reduction in Transmission Entry Capacity or Developer Capacity to zero*
- *Fixed Attributable Works Cancellation Charge = Attributable Works Cancellation Amount x MW reduction in Transmission Entry Capacity or Developer Capacity x Cancellation Charge Profile<sub>t</sub>*
- *Cancellation Charge Profile<sub>t</sub> which varies according to the number of Financial Years working back from the Charging Date to the Trigger Date:*
  - *In the Financial Year in which the Charging Date occurs (t=0), Cancellation Charge Profile = 1.0,*
  - *In the Financial Year which is 1 Financial Year prior to the Financial Year in which the Charging Date occurs (t=1), Cancellation Charge Profile = 0.75;*
  - *In the Financial Year which is 2 Financial Years prior to the Financial Year in which the Charging Date occurs (t=2), Cancellation Charge Profile = 0.5; and*
  - *In the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs (t=3), Cancellation Charge Profile, = 0.25.*

**AND**

- (b) *Wider Cancellation Charge*

Where:

- *Termination of Construction Agreement equates to reduction in Transmission Entry Capacity or Developer Capacity to zero*

## CMP223 ORIGINAL

- *Wider Cancellation Charge = Zonal Unit Amount x reduction in Transmission Entry Capacity or Developer Capacity x Cancellation Charge Profile<sub>t</sub>*
- *Cancellation Charge Profile<sub>t</sub>, which varies according to the number of Financial Years working back from the Charging Date to the Trigger Date:*
  - *In the Financial Year in which the Charging Date occurs (t=0), Cancellation Charge Profile = 1.0,*
  - *In the Financial Year which is 1 Financial Year prior to the Financial Year in which the Charging Date occurs (t=1), Cancellation Charge Profile = 0.75;*

  - *In the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs (t=3), Cancellation Charge Profile = 0.25.*

### 3.11 Where the Transmission Entry Capacity is reduced or Notice of Disconnection is given on or after the Charging Date

The **Cancellation Charge** payable on notice of **Disconnection** and/or a reduction in **Transmission Entry Capacity** on or after the **Charging Date** is calculated on a £/MW basis as follows by reference to the **Zonal Unit Amount** for the **Financial Year** in which the notice is given:

*Cancellation Charge = Wider Cancellation Charge*

Where:

- *Disconnection equates to reduction in Transmission Entry Capacity to zero*
- *Wider Cancellation Charge = Zonal Unit Amount for year in which notice of disconnection or reduction is given x reduction in Transmission Entry Capacity x Cancellation Charge Profile<sub>t</sub>.*

### 5.2 Cancellation Charge Statement

5.2.1 **The Company** shall issue a **Cancellation Charge Statement** to a **User** showing the amount of the payment required or which may be required to be made by the **User** to **The Company** in respect of the **Cancellation Charge** prior to the **Charging Date** at the following times and in respect of the following periods:-

- (i) Forthwith on and with effect from the signing of the **Construction Agreement** or the **BELLA** or the **Bilateral Cancellation Charge Agreement**, in respect of the period from and including the day of signing of the **Construction Agreement** until the next following 30 September or 31 March, whichever is the earlier; and thereafter
- (ii) not less than 75 (seventy five) days (or if such day is not a **Business Day** the next following **Business Day**) prior to each 30 September and 31 March thereafter in respect of the period of six calendar months commencing on the immediately following 1 October or 1 April (as the case may be), until the earlier of either the termination of the relevant **Construction Agreement** or the **BELLA** or the **Bilateral Cancellation Charge Agreement** or the **Charging Date**.

5.3 If a **User** does not elect for the **Fixed Cancellation Charge** (unless and until a **User** subsequently elects for a **Fixed Cancellation Charge** as provided for at Paragraph 7 or advises **The Company** that it does not wish to receive this) **The Company** shall provide a **Notification of Fixed Cancellation Charge** and an estimate of the **Actual Attributable Works Cancellation Charge** with each **Cancellation Charge Statement**.

5.4 The **Actual Attributable Works Cancellation Charge** shall apply unless and until a **User** elects for a **Fixed Cancellation Charge** in accordance with Paragraph 7.

5.5 **Estimating the Actual Attributable Works Cancellation Charge**

## CMP223 ORIGINAL

In the case of the **Actual Attributable Works Cancellation Charge**, the **Cancellation Charge Statement** shall set out a fair and reasonable estimate of the **Actual Attributable Works Cancellation Charge** for the 6 month period and, for the project generally. In addition the 6 month estimate of the **Actual Attributable Works Cancellation Charge** shall, for the purposes of assessing the **Cancellation Charge Secured Amount**, be prorated on a MW basis between those **Users** who share a component within the **Attributable Works**.

### 6 Electing for the Fixed Cancellation Charge

6.1 To elect for a the **Fixed Cancellation Charge**, a **User** must notify **The Company** to this effect by (a) returning a signed copy of the **Notification of Fixed Cancellation Charge** with its acceptance of the **Construction Agreement** or (b) , where a **User** does not elect at that time, it can elect 45 days (or if such day is not a **Business Day** the next following **Business Day**) prior to each 30 September or 31 March thereafter by returning a signed copy of the **Notification of Fixed Cancellation Charge** as provided with the relevant **Cancellation Charge Statement**.

6.2 Once a **User** has elected for the **Fixed Cancellation Charge**, the **Pre Trigger Amount**, **Attributable Works Amount** and **Cancellation Charge Profile** will then be fixed as that set out in the **Notification of Fixed Cancellation Charge** by reference to which such election was made and a **User** cannot revert to the **Actual Attributable Works Cancellation Charge**.

Where the bank or the company so ceases to be either a **Qualified Bank** or a **Qualified Company** (as the case may be) as a consequence of **The Company** having reasonable cause to doubt the continued rating of the said bank or company, such notice shall be accompanied by a statement setting out **The Company's** reasons for having such doubt. The **User** shall within 21 days of the giving of such notice by **The Company** or the **User** whichever is the earlier provide a replacement **Performance Bond** and/or **Letter of Credit** from a **Qualified Bank** or **Qualified Company**, as the case may be, and/or provide a cash deposit in the required amount in a **Bank Account**. Such renewed **Performance Bond** or **Letter of Credit** shall be for an amount not less than the **Cancellation Charge Secured Amount** to be secured during that **Security Period**.

**6.2.4** The following provisions shall govern the maintenance of cash deposits in the **Bank Account**:-

**6.2.4.1** The amount of the **User's** cash deposit to be maintained in the **Bank Account** shall be maintained by the **User** from the date of the **Construction Agreement** at least to the end of the **First Security Period**. Such cash deposit shall be in the amount of the **Cancellation Charge Secured Amount** to be secured during that **First Security Period**.

**6.2.4.2** If the amount of the **Cancellation Charge Secured Amount** to be secured from the start of each **Security Period** is an amount greater than the amount then secured, the **User's** cash deposit in the **Bank Account** in respect of the **Security Amount** shall be increased by the **User** to such greater amount on the date which is 45 days before the start of the given **Security Period**.

**6.2.4.3** If the **Cancellation Charge Secured Amount** for a given **Security Period** is smaller than the amount then secured, the

**User's** cash deposit in the **Bank Account** in respect of the **Security Amount** shall not be reduced to the amount so stated until the expiry of 7 days after the start of that given **Security Period** ("the **Release Date**").

**6.2.4.4** The sum equal to the amount of reduction in the **User's** cash deposit in the **Bank Account** in respect of the **Security Amount** shall be paid by **The Company** to the **User** from the **Bank Account** on the **Release Date**.

**6.2.4.5** Any interest accruing in respect of the **User's** cash deposit in the **Bank Account** in respect of the **Security Amount** shall be for the account of and belong to the **User** absolutely, and **The Company** agrees to take any steps required to be taken by it for the release from the **Bank Account** (or any other bank account in the name of **The Company** in which such interest is held) and payment to the **User** of such interest as soon as **The Company** shall have received notice from the **User** requesting such payment.

**6.2.4.6** For the avoidance of doubt, the **User's** cash deposit in the **Bank Account** shall remain the sole property and entitlement of the **User** until such time when (and to such extent as) the **Company** exercises its right of set off against the **User's** cash deposit in accordance with the terms of the **CUSC**, and the **User** shall have no right to have the cash deposit returned to it for so long as it is under any prospective or contingent liability to the **Company**.

**6.3** Notwithstanding any provision aforesaid:-

**6.3.1** The **User** may provide different securities to **The Company** at any one time, each securing a different amount, provided that the aggregate amount secured by such securities shall be not less than the amount of the **Cancellation Charge Secured Amount** required to be secured for that **Security Period**.

**6.3.2** The **User** may upon the expiry of at least 14 days prior written notice to **The Company**, substitute one type of security for another provided that unless **The Company** shall otherwise agree in writing such substituted security must be **Valid** from the first day of the relevant **Security Period** and committed at least 45 days before this in the following manner:-

(b) where a cash deposit in a **Bank Account** is to substitute for other securities, it must be deposited into the **Bank Account** at least 45 days before the start of the **Security Period** to which it relates.

**6.3.3** Upon request by the **User** to **The Company**, securities substituted in the aforesaid manner shall, providing the substitute security shall be **Valid**, be released on the first day of the **Security Period** which the substitute security is securing. However, where the **Cancellation Charge Secured Amount** to be secured for any **Security Period** is less than the amount required to be secured in the preceding **Security Period**, the substituted security shall not be released until 7 days after the start of the **Security Period** that that substitute security is securing.

**USER COMMITMENT METHODOLOGY**

**CONTENTS**

- Part One      Introduction**
  
- Part Two      Calculation of Cancellation Charge**
  
- Part Three    Calculation of Cancellation Charge Secured Amount and Credit Requirements**
  
- Part Four    Reconciliation of Actual Attributable Works Cancellation Charge**

**PART ONE INTRODUCTION**

- 1 Where (a) a **Construction Agreement** and/or a **Bilateral Connection Agreement** or **Bilateral Embedded Generation Agreement** between a **User** in respect of the categories specified below and **The Company** is terminated or (b) there is a reduction in **Transmission Entry Capacity** by or in respect of such **User** or (c) there is a reduction in **Developer Capacity** in a **Construction Agreement** prior to the **Charging Date**, such **User** shall pay to **The Company** the **Cancellation Charge** calculated and applied in accordance with Part Two of this Section 15
  
- 2 The **Cancellation Charge** is payable by **Users** on termination of agreements with and reductions in **Transmission Entry Capacity** or **Developer Capacity** in respect of **Users** in the categories of
  - (a) a **Power Station** directly connected to the **National Electricity Transmission System** in respect of which there is a **Bilateral Connection Agreement** with **The Company**;
  
  - (b) an **Embedded Power Station** in respect of which there is a **Bilateral Embedded Generation Agreement** with **The Company**;
  
  - (c) a **Distribution System** directly connected to the **National Electricity Transmission System** in respect of which there is a **Construction Agreement** associated with **Distributed Generation**and reference to **User** in this Section 15 shall be interpreted accordingly.

For the avoidance of doubt this schedule does not apply to **Users** other than those described above.

For the avoidance of doubt in respect of **Users** in the case of category (b) above where **The Company** has an associated **Construction Agreement** with a **User** in the category of (c) above, the **Cancellation Charge** payable by a **User** in category (b) above will not include the **Attributable Works Cancellation Charge** component of the **Cancellation Charge**. In such case

**WACM1**  
**WACM2**

the **Attributable Works Cancellation Charge** component of the **Cancellation Charge** will be payable by the associated **User** in category (c) above.

For the avoidance of doubt in the case of:

- (i) **Users** in the case of category (c) above; and
- (ii) **Distributed Generation** (other than an **Embedded Power Station** which is the subject of a **Bilateral Embedded Generation Agreement**),

the **Cancellation Charge** does not apply for reductions in **Developer Capacity** on or after the **Charging Date** or termination on or after the **Charging Date**.

For information, for **Users** other than **Users** in the categories to which this Section 15 applies, the liability for and security requirements in respect of **Final Sums**, which are due on termination of a **Construction Agreement** are as set out in the **Construction Agreement** (and in the proforma attached at **CUSC** Schedule 2, Exhibit 3).

For the avoidance of doubt, in addition to the **Cancellation Charge**, **Termination Amounts** also apply in respect of **Transmission Connection Assets**.

- 3** The **Company** shall apply and calculate the **Cancellation Charge** in accordance with Part Two of this Section 15.

The **Cancellation Charge** is made up of a number of components: the "**Pre Trigger Amount**", "**Attributable Works Cancellation Charge**" and "**Wider Cancellation Charge**" which apply at different stages.

- 4** As provided for at Paragraph 3.5, the **Attributable Works Cancellation Charge** can be (at the **User's** election in accordance with Paragraph 7) on the basis of the **Fixed Cancellation Charge** (Paragraph 3.6) rather than the **Actual Attributable Works Cancellation Charge** (Paragraph 3.7).
- 5** This Section 15 also sets out in Part Three the level of, and arrangements for, security required in respect of the **Cancellation Charge**.

**WACM1**  
**WACM2**

- 6 **The Company** shall apply and calculate the **Cancellation Charge Secured Amount** in accordance with this Section 15 Part Three.
- 7 This Section 15 also sets out in Part Four the reconciliation process in respect of the **Actual Attributable Works Cancellation Charge**.
- 8 For reference a number of terms used in this Section 15 are defined within this Section 15.

**9 Distributed Generation**

Users in the category of (c) above are liable for the **Cancellation Charge** (or where the **Distributed Generation** has a **Bilateral Embedded Generation Agreement**, the **Attributable Works Cancellation Charge** component of the **Cancellation Charge**) on a reduction in **Developer Capacity** (or in the case of **Distributed Generation** with a **Bilateral Embedded Generation Agreement**) **Transmission Entry Capacity** and/or termination of the **Construction Agreement** between **The Company** and the **User**. Given this such **Users** will have arrangements in place with the **Distributed Generation** for reimbursement by the **Distributed Generation** of the **Cancellation Charge** and recognising this there are specific payment arrangements between the **User** and **The Company** provided for in the **Construction Agreement** between the **User** and **The Company**.

**PART TWO CALCULATION OF CANCELLATION CHARGE**

1.1 The **Cancellation Charge** payable shall be calculated in accordance with this Part Two of Section 15.

1.2 Value Added Tax will be payable on any **Cancellation Charge**.

**2 Completion Date and Trigger Date**

2.1 In making an **Offer** to a **User** **The Company** will consider the **Construction Works** and **Construction Programme** associated with that **Offer** and taking into account the nature and programming of the **Construction Works** and the **Consents** associated with this will identify dates in the **Construction Agreement** as the **Completion Date**.

2.2 The **Trigger Date** will be (a) the 1 April which is three **Financial Years** prior to the start of the **Financial Year** in which the **Charging Date** occurs or (b) where the **Charging Date** is less than three **Financial Years** from the date of the **Construction Agreement**, the date of the **Construction Agreement** (in which case the **Financial Year** in which such date falls is the relevant **Financial Year** within the **Cancellation Charge Profile** working back from the **Charging Date**).

2.3 The **Trigger Date** is the date from which the **Wider Cancellation Charge** applies and the date from which, in the case of the **Fixed Cancellation Charge**, the **Fixed Attributable Works Cancellation Charge** rather than the **Pre Trigger Amount** applies. Prior to the **Trigger Date**, only the **Attributable Works Cancellation Charge** applies, or in case of the **Fixed Cancellation Charge**, the **Pre Trigger Amount** applies.

**2.4 Changes to Construction Programme or Construction Works or Transmission Entry Capacity or Developer Capacity**

2.4.1 Where the **Construction Programme** or the **Construction Works** or **Transmission Entry Capacity** or **Developer Capacity** subsequently changes from that in the original **Construction Agreement** the following principles will apply in respect of reassessing the **Trigger Date** and the **Cancellation Charge**.

**2.4.2** Where such change is as a result of **The Company's** exercise of its rights under the **Construction Agreement** then:

- (i) Where there is a delay to the **Completion Date** and the **Trigger Date** has not passed, the **Trigger Date** will be revised by reference to the revised **Completion Date**. The period for which the **Pre Trigger Amount** applies, will be adjusted to reflect the new **Trigger Date**;
- (ii) Where there is a delay to the **Completion Date** and the **Trigger Date** has passed, the **Trigger Date** will be revised by reference to the revised **Completion Date** and the **Cancellation Charge** (including the **Cancellation Charge Profile**) will be adjusted to reflect the revised date.
- (iii) In the case of a **Fixed Cancellation Charge**, a change in the **Attributable Works** will not adjust the **Cancellation Charge Profile** unless the **Completion Date** has also changed in which case (ii) above will apply.

**2.4.3** Where a change is as a result of the **User's** request then, notwithstanding any change in the **Completion Date**;

- (i) Where there is a delay to the **Completion Date** and the **Trigger Date** has not passed, the **Trigger Date** will be revised by reference to the revised **Completion Date**. The period for which the **Pre Trigger Amount** applies, will be adjusted to reflect the new **Trigger Date**;
- (ii) Where there is a delay to the **Completion Date** and the **Trigger Date** has passed, the **Trigger Date** will not be revised by reference to the revised **Completion Date** and the **Cancellation Charge** will not be adjusted downwards but will be held at that level and will increase from that level in line with any new **Construction Programme**.

### 3 Calculation of Cancellation Charge

3.1 The **Cancellation Charge** is the charge due to **The Company** by a **User** on termination of a **Construction Agreement**, **Disconnection** or a reduction in **Transmission Entry Capacity** or **Developer Capacity** prior to the **Charging Date** and **Disconnection** or a reduction in **Transmission Entry Capacity** on or after the **Charging Date**.

3.2 This calculation of the **Cancellation Charge** is different:

- (a) where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced before the **Trigger Date** (the "**Pre Trigger Amount**" or "**Actual Attributable Works Cancellation Charge**") (Paragraphs 3.6.1 and 3.7);
- (b) where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** (the "**Fixed Attributable Works Cancellation Charge**" or "**Actual Attributable Works Cancellation Charge**" and the "**Wider Cancellation Charge**") (Paragraphs 3.5 to 3.8);
- (c) depending whether the **Attributable Works Cancellation Charge** is a **Fixed Cancellation Charge** or **Actual Attributable Works Cancellation Charge** (Paragraphs 3.5 to 3.7);
- (d) where the **Transmission Entry Capacity** is reduced or **Disconnection** occurs on or after the **Charging Date** (the "**Wider Cancellation Charge**") (Paragraph 3.8).

3.3 **Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced before the Trigger Date**

**WACM1**  
**WACM2**

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced before the **Trigger Date** the **Cancellation Charge** shall be calculated as follows:

***Cancellation Charge = Attributable Works Cancellation Charge***

**3.4 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced on or after the Trigger date but prior to the Charging Date**

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the Trigger date but prior to the **Charging Date** the **Cancellation Charge** shall be calculated as follows:

***Cancellation Charge = Attributable Works Cancellation Charge plus Wider Cancellation Charge***

The following Paragraphs set out in detail the **Attributable Works Cancellation Charge** and **Wider Cancellation Charge** and Paragraph 3.7 sets out the above calculation by formula.

**3.5 Attributable Works Cancellation Charge**

The **Attributable Works Cancellation Charge** can be either the **Fixed Cancellation Charge** or **Actual Attributable Works Cancellation Charge**.

**3.6 Fixed Cancellation Charge**

The calculation of the **Fixed Cancellation Charge** is different where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced before ("Pre Trigger Amount") or on or after the **Trigger Date** ("Fixed Attributable Works Cancellation Charge").

**3.6.1 Pre Trigger Amount**

WACM1  
WACM2

Should a **Construction Agreement** be terminated, or **Transmission Entry Capacity** be reduced or **Developer Capacity** be reduced before the **Trigger Date** the **Fixed Cancellation Charge** is the **Pre Trigger Amount** calculated as a £/MW figure by reference to the **Cancellation Charge Profile** and derived in accordance with the formula at Paragraph 3.9 and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 7:

### 3.6.2 Fixed Attributable Works Cancellation Charge

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** the **Fixed Cancellation Charge** is the **Fixed Attributable Works Cancellation Charge** calculated as follows:

***Fixed Attributable Works Cancellation Charge = (Attributable Works Cancellation Amount x MW Reduction in Transmission Entry Capacity or Developer Capacity) x Cancellation Charge Profile***

*Where the Attributable Works Cancellation Amount results in a £/MW figure calculated as follows:*

***(Estimated Attributable Works Capital Cost x (1 – Local Asset Reuse Factor) x Strategic Investment Factor x Distance Factor) / Transmission Entry Capacity or Developer Capacity***

*Where the Estimated Attributable Works Capital Cost is the fair and reasonable estimate of the Attributable Works Capital Cost for each component within the Attributable Works and which is as set out in the Notification of Fixed Cancellation Charge by reference to which an election is made in accordance with Paragraph 6.*

*Where the Attributable Works are as specified in Appendix MM of the Construction Agreement at the time of the Notification of Fixed Cancellation Charge by reference to which an election is made in accordance with Paragraph 6.*

Where the **Local Asset Reuse Factor** is the factor representing the potential for reuse of each component within the **Attributable Works** as set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

Where the **Strategic Investment Factor** is a factor calculated for each component within the **Attributable Works** as a ratio of the **Transmission Entry Capacity** and/or **Developer Capacity** sharing those **Attributable Works** against the secured capability of the **Transmission** assets and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

Where the **Distance Factor** is a factor calculated for each component within the **Attributable Works** as a ratio of distance to the nearest suitable MITS substation and distance to the MITS substation where the **Attributable Works** connect as set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6. This factor is only valid for components where distance is relevant i.e. cables and overhead lines.

Where the **Cancellation Charge Profile** is the profile derived in accordance with the formula at Paragraph 3.10 and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

**3.6.3** The **Pre Trigger Amount** and the **Attributable Works Cancellation Amount** (and the factors used in deriving this) and the **Cancellation Charge Profile** are fixed at the time an election is made in accordance with Paragraph 7 and the **Pre Trigger Amount** and **Attributable Works Cancellation Amount** are not subject to any further specific adjustment, reconciliation or credit should any of the **Transmission** assets resulting from the **Attributable Works** be reused or of benefit to other **Users**.

### **3.7 Actual Attributable Works Cancellation Charge**

WACM1  
WACM2

- 3.7.1 The **Actual Attributable Works Cancellation Charge** is the **Attributable Works Capital Cost** in respect of each component within the **Attributable Works** at the time at which the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced including (a) fees, expenses and costs properly payable by **The Company** in respect of, or arising from the termination by **The Company** or any third party of any contract for or relating to the carrying out of any of the **Attributable Works** provided it is negotiated on an arms length basis (including any such arising under the **STC**) and (b) a sum equal to the reasonable costs of removing any **Transmission Connection Assets** and of making good the remaining **Plant** and **Apparatus** following such removal and (c) proper and reasonable expenses incurred and or paid or which **The Company** is legally bound to incur or pay in seeking **Consents** for the **Attributable Works** and (d) interest on any such amounts from the date they were paid by **The Company** to the date of **The Company's** invoice at 2% over **Base Rate** from time to time and for the time being provided that in each case **The Company** shall take into account the **Local Asset Reuse Factor**, the **Strategic Investment Factor** and the **Distance Factor** as calculated in paragraph 3.6.2, of the **Attributable Works** and any of the resulting **Transmission** assets.
- 3.7.2 In the case of the **Actual Attributable Works Cancellation Charge**, on termination of the **Construction Agreement** or reduction in **Transmission Entry Capacity** or **Developer Capacity** prior to the **Charging Date**, **The Company** shall be entitled to invoice the **User** for a sum equal to **The Company's** fair and reasonable estimate of the **Actual Attributable Works Cancellation Charge** and so (a) in the case of termination, the **User** shall pay to **The Company** on account of the **Actual Attributable Works Cancellation Charge** a sum equal to the estimate of **Actual Attributable Works Cancellation Charge** as shown in the **Cancellation Charge Statement** for the period in which the termination occurs and (b) in the case of a reduction in **Transmission Entry Capacity** or **Developer Capacity**, a sum by reference to the MW reduction based on the £/MW figure derived from the estimate of **Actual Attributable Works Cancellation Charge** as shown in the **Cancellation Charge Statement** for the period in which the termination occurs. These will then be subject to reconciliation in accordance with this Section 15 Part Four.

### 3.8 Wider Cancellation Charge

The **Wider Cancellation Charge** results in a £/MW charge calculated as follows:

***Zonal Unit Amount*** x (MW of reduction in **Transmission Entry Capacity** or **Developer Capacity**) x **Cancellation Charge Profile**

The **Zonal Unit Amount** is a £/MW figure calculated by reference to the **Generation Zone** in which the **Power Station** is to be located as set out in the **Cancellation Charge Statement**. It is calculated by reference to the **Annual Wider Cancellation Charge Statement** for the **Financial Year** in which notice of reduction in **Transmission Entry Capacity** or **Developer Capacity** is given and/or notice of **Disconnection** is given or, where in the case of an **Event of Default** where notice is not given, the **Financial Year** in which the reduction in **Transmission Entry Capacity** or **Developer Capacity** or **Disconnection** occurs.

*Where the **Zonal Unit Amount** = Load Related Boundary Capex apportioned to Boundaries by Boundary (LR) Level and Non Load Related Boundary Capex apportioned to Boundaries by Boundary (NLR) Level, summated and multiplied by Boundary Non Compliance Factors and then mapped to Generation Zones and divided by the Wider User Commitment Liability Base, excluding those Power Stations in respect of which a Construction Agreement has terminated or The Company has been notified of a reduction in the Transmission Entry Capacity or Developer Capacity or Disconnection within the period in question.*

*Where **Load Related Boundary Capex** is the capex required to increase capability in the network as determined by The Company for a given Financial Year, excluding any Attributable Works Capital Cost, multiplied by the User Risk Factor and the Global Asset Reuse Factor, as set out in the Annual Wider Cancellation Charge Statement.*

*Where **Non Load Related Boundary Capex** is the capex required to maintain capability in the network as determined by The Company for a given Financial*

*Year, excluding any **Attributable Works Capital Cost**, multiplied by the **User Risk Factor** and the **Global Asset Reuse Factor**, as set out in the **Annual Wider Cancellation Charge Statement**.*

*Where the **User Risk Factor** is the share of total risk between generation and consumers, set at 0.5.*

*Where the **Global Asset Reuse Factor** for a given **Financial Year** is as set out in the **Annual Wider Cancellation Charge Statement**.*

*Where the **Boundaries** are as detailed in Section 8 of the **Seven Year Statement**.*

*Where **Boundary (LR) Level** is the depth of each **Boundary** as determined by **The Company** multiplied by the increase in required capability on that **Boundary** over the forthcoming four year period, as set out in the **Seven Year Statement**.*

*Where **Boundary (NLR) Level** is the depth of each **Boundary** as determined by **The Company** multiplied by the available capability on that **Boundary** in the year in question, as set out in the **Seven Year Statement**.*

*Where **Boundary Non Compliance Factors** are the ratio between the available capability and required capability on each **Boundary** as detailed in Section 8 of the **Seven Year Statement**, capped at 100%.*

*Where **Generation Zones** are (a) as defined in the **Seven Year Statement** for the **Financial Year** in which the termination or reduction in **Transmission Entry Capacity** or reduction in **Developer Capacity** occurs prior to the **Charging Date** (or where not so defined as set out in the relevant **Cancellation Charge Statement**) or (b) as defined in the **Seven Year Statement** for the **Financial Year** in which the notice of **Disconnection** or reduction in **Transmission Entry Capacity** occurs on or after the **Charging Date**.*

**WACM1**  
**WACM2**

Where the **Wider User Commitment Liability Base** is the total amount of generation in MW liable for the **Wider Cancellation Charge** in the year in question and the total amount of generation in MW which will become liable for the **Wider Cancellation Charge** in the year in question and set out in the **Annual Wider Cancellation Charge Statement**.

Where the **Cancellation Charge Profile** is the profile derived in accordance with the formula at Paragraph 3.10 or 3.11, as appropriate.

**3.9 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced before the Trigger Date**

Should a **Construction Agreement** be terminated, or **Transmission Entry Capacity** be reduced or **Developer Capacity** be reduced before the **Trigger Date** the **Cancellation Charge** shall be calculated as follows:

*Cancellation Charge = Either the Actual Attributable Works Charge or, where on the Fixed Attributable Works Cancellation Charge, a charge calculated as follows:*

*Reduction in Transmission Entry Capacity or Reduction in Developer Capacity x Pre Trigger Amount<sub>t</sub>*

Where:

- *Transmission Entry Capacity /Developer Capacity expressed in MW.*
- *Termination of Construction Agreement equates to a reduction in Transmission Entry Capacity or Developer Capacity to zero*
- *Pre Trigger Amount<sub>t</sub> which varies according to the number of Financial Years from the date of the Construction Agreement to the Trigger Date:*
  - *up to the end of the first Financial Year (i.e. t =1), the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£1000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*
  - *Where t = 2, the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£2000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*
  - *Where t ≥ 3 up to Trigger Date, the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£3000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*

**WACM1**  
**WACM2**

**3.10 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced on or after the Trigger Date but prior to the Charging Date**

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** a **User** shall pay the **Cancellation Charge** calculated as follows:

*Cancellation Charge = the sum of (a) Fixed Attributable Works Cancellation Charge or Actual Attributable Works Cancellation Charge and (b) Wider Cancellation Charge*

*(a) Either the Actual Attributable Works Charge or, where on the Fixed Attributable Works Cancellation Charge, a charge calculated as follows:*

**3.11 Where the Transmission Entry Capacity is reduced or Notice of Disconnection is given on or after the Charging Date**

The **Cancellation Charge** payable on notice of **Disconnection** and/or a reduction in **Transmission Entry Capacity** on or after the **Charging Date** is calculated on a £/MW basis as follows by reference to the **Zonal Unit Amount** for the **Financial Year** in which the notice is given:

*Cancellation Charge = Wider Cancellation Charge*

## 5.5 Estimating the Actual Attributable Works Cancellation Charge

In the case of the **Actual Attributable Works Cancellation Charge**, the **Cancellation Charge Statement** shall set out a fair and reasonable estimate of the **Actual Attributable Works Cancellation Charge** for the 6 month period

**WACM1**  
**WACM2**

and, for the project generally. In addition the 6 month estimate of the **Actual Attributable Works Cancellation Charge** shall, for the purposes of assessing the **Cancellation Charge Secured Amount**, be prorated on a MW basis between those **Users** who share a component within the **Attributable Works**.

**6 Electing for the Fixed Cancellation Charge**

**6.1** To elect for a the **Fixed Cancellation Charge**, a **User** must notify **The Company** to this effect by (a) returning a signed copy of the **Notification of Fixed Cancellation Charge** with its acceptance of the **Construction Agreement** or (b) , where a **User** does not elect at that time, it can elect 45 days (or if such day is not a **Business Day** the next following **Business Day**) prior to each 30 September or 31 March thereafter by returning a signed copy of the **Notification of Fixed Cancellation Charge** as provided with the relevant **Cancellation Charge Statement**.

**6.2** Once a **User** has elected for the **Fixed Cancellation Charge**, the **Pre Trigger Amount**, **Attributable Works Amount** and **Cancellation Charge Profile** will then be fixed as that set out in the **Notification of Fixed Cancellation Charge** by reference to which such election was made and a **User** cannot revert to the **Actual Attributable Works Cancellation Charge**.

**7 Cancellation Charge Secured Amount Statement**

**7.1** Where a **User** has to provide security in accordance with Part Three of this Section 15 the **Cancellation Charge Statement** shall be accompanied by the **Cancellation Charge Secured Amount Statement**.

**7.2** The **Cancellation Charge Secured Amount** shall be based on the highest level of **Cancellation Charge** due within the period covered by the **Cancellation Charge Secured Amount Statement**.

**PART THREE**

**1. CALCULATION OF CANCELLATION CHARGE SECURED AMOUNT AND CREDIT REQUIREMENTS**

2. Each **User** which has a **Construction Agreement** shall provide security in respect of each of its **Construction Agreements** for the **Cancellation Charge Secured Amount** as applied and calculated in accordance with this Part Three of Section 15:

2.1 in the case of a **User** which meets **The Company Credit Rating** at the date of the **Construction Agreement** in accordance with Paragraph 4; and

2.2 in the case of a **User** which does not meet **The Company Credit Rating** at the date of the **Construction Agreement** or thereafter ceases to meet it, in accordance with Paragraph 5.

**3. CALCULATION OF CANCELLATION CHARGE SECURED AMOUNT**

3.1 Prior to the **Trigger Date** the **Cancellation Charge Secured Amount** is the **Cancellation Charge** as set out in the **Cancellation Charge Statement** for the relevant **Security Period**.

3.2 On or after the **Trigger Date** until the **Charging Date** the **Cancellation Charge Secured Amount** is that percentage of the figure shown as the **Cancellation Charge** in the **Cancellation Charge Statement** for the relevant **Security Period** determined as follows:

<a href="#">For Users in category (a) as per Section 15 Part One Paragraph 2</a>	
Prior to (and including) the <b>Key Consents In Place Date</b>	the % for that <b>Financial Year</b> as set out in the <b>Annual Wider Cancellation Charge Statement</b> .

**4. PROVISION OF SECURITY WHERE USER MEETS THE COMPANY CREDIT RATING**

4.1 The **User** shall as soon as possible after entering into a **Construction Agreement** and/or **Bilateral Connection Agreement** or **Bilateral Embedded Generation Agreement** and in any event no later than one (1) month after the date of the same confirm to **The Company** whether it meets **The Company Credit Rating**. Thereafter not less than 75 days before the 1 April and 1 October each year until 30 days after the **Charging Date** the **User** shall confirm to **The Company** whether it meets **The Company Credit Rating** (which in the case of a long term private credit rating shall be confirmed by Standard and Poor's or Moody's within a period of 45 days prior to the date of confirmation). The **User** shall inform **The Company** in writing forthwith if it becomes aware of no longer meeting **The Company Credit Rating** or if it is or is likely to be put on credit watch or any similar credit surveillance procedure which may give **The**

**WACM1**  
**WACM2**

**Company** reasonable cause to believe that the **User** may not be able to sustain meeting **The Company Credit Rating** for at least 12 months.

**4.2** In the event that the **User** has elected to provide **The Company** with an indicative credit rating and **The Company** is of the reasonable opinion that the **User** has ceased to comply with the requirements of Paragraph 4.1 then **The Company** may require the **User** forthwith:

- (i) to apply to Standard and Poor's and/or Moody's for a further indicative long term private credit rating; or
- (ii) to confirm to **The Company** that it shall provide the security referred to in Paragraph 4.4 below.

**4.3** In the event of the **User**:

- (i) not meeting **The Company Credit Rating**; or
- (ii) having a credit rating below **The Company Credit Rating**; or
- (iii) not having obtained from Standard and Poor's or Moody's within 30 days of the written notification under Paragraph 4.2(i) above an indicative long term private credit rating,

or if **The Company** becomes aware that:

- (iv) the **User** ceases to meet **The Company Credit Rating**; or
- (v) the **User** is put on credit watch or other similar credit surveillance procedure as specified above which may give **The Company** reasonable cause to believe that the **User** may not be able to maintain **The Company Credit Rating** for at least 12 months; or
- (vi) the **User** has not obtained from Standard and Poor's within 30 days of the written notification by **The Company** under Paragraph 4.2(i) above a further indicative long term private credit rating,

WACM1  
WACM2

the **User** shall (where appropriate on receipt of written notification from **The Company**) comply with the terms of Paragraph 4.4.

4.4 The **User** shall within 21 days of the giving of a notice under Paragraph 4.3 or within 30 days of the **User** confirming to **The Company** under Paragraph 4.2(ii) that it will provide the security specified below (whichever is the earlier), provide **The Company** with the security specified below to cover the **Cancellation Charge Secured Amount** for the relevant **Security Period** as notified by **The Company** to the **User**.

4.5 The form of security provided shall be of a type set out in Paragraph 6.

**PART ONE INTRODUCTION**

1 Where (a) a **Construction Agreement** and/or a **Bilateral Connection Agreement** or **Bilateral Embedded Generation Agreement** or **BELLA** between a **User** in respect of the categories specified below and **The Company** is terminated or (b) there is a reduction in **Transmission Entry Capacity** by or in respect of such **User** or (c) there is a reduction in **Developer Capacity** in a **BELLA or Construction Agreement** prior to the **Charging Date**, such **User** shall pay to **The Company** the **Cancellation Charge** calculated and applied in accordance with Part Two of this Section 15

2 The **Cancellation Charge** is payable by **Users** on termination of agreements with and reductions in **Transmission Entry Capacity** or **Developer Capacity** in respect of **Users** in the categories of

(a) a **Power Station** directly connected to the **National Electricity Transmission System** in respect of which there is a **Bilateral Connection Agreement** with **The Company**;

(b) an **Embedded Power Station** in respect of which there is a **Bilateral Embedded Generation Agreement** with **The Company**;

(c) an Embedded Power Station in respect of which there is a BELLA with The Company;

(d) a **Distribution System** directly connected to the **National Electricity Transmission System** in respect of which there is an **Associated DNO Construction Agreement** (other than in respect of an Embedded Power Station which is the subject of a Bilateral Embedded Generation Agreement or BELLA)

Deleted: associated with Distributed Generation

and reference to **User** in this Section 15 shall be interpreted accordingly.

For the avoidance of doubt this schedule does not apply to **Users** other than those described above.

For the avoidance of doubt where there is an Associated DNO Construction Agreement in respect of Distributed Generation in the category of (b) and (c)

Deleted: in respect of Users in the case of category (b) above where The Company has an associated Construction Agreement with a User

Deleted: c

### WACM3

above, such Associated DNO Construction Agreement will contain the necessary elements to enable (and information it in will be used for the purposes of) the calculation of the Cancellation Charge but it will not provide for payment of the Cancellation Charge. In such case the Cancellation Charge will be payable by the associated User in category of, as appropriate, (b) or (c) above.

For the avoidance of doubt in the case of:

- (i) **Users** in the case of category (d) above; and
- (ii) **Distributed Generation** (other than an **Embedded Power Station** which is the subject of a **Bilateral Embedded Generation Agreement**),

the **Cancellation Charge** does not apply for reductions in **Developer Capacity** on or after the **Charging Date** or termination on or after the **Charging Date**.

For information, for **Users** other than **Users** in the categories to which this Section 15 applies, the liability for and security requirements in respect of **Final Sums**, which are due on termination of a **Construction Agreement** are as set out in the **Construction Agreement** (and in the proforma attached at **CUSC** Schedule 2, Exhibit 3).

For the avoidance of doubt, in addition to the **Cancellation Charge**, **Termination Amounts** also apply in respect of **Transmission Connection Assets**.

- 3 The **Company** shall apply and calculate the **Cancellation Charge** in accordance with Part Two of this Section 15.

The **Cancellation Charge** is made up of a number of components: the "**Pre Trigger Amount**", "**Attributable Works Cancellation Charge**" and "**Wider Cancellation Charge**" which apply at different stages.

- 4 As provided for at Paragraph 3.5, the **Attributable Works Cancellation Charge** can be (at the **User's** election in accordance with Paragraph 7) on the basis of the **Fixed Cancellation Charge** (Paragraph 3.6) rather than the **Actual Attributable Works Cancellation Charge** (Paragraph 3.7).

- 5 This Section 15 also sets out in Part Three the level of, and arrangements for, security required in respect of the **Cancellation Charge**.
- 6 **The Company** shall apply and calculate the **Cancellation Charge Secured Amount** in accordance with this Section 15 Part Three.
- 7 This Section 15 also sets out in Part Four the reconciliation process in respect of the **Actual Attributable Works Cancellation Charge**.
- 8 For reference a number of terms used in this Section 15 are defined within this Section 15.
- 9 For the purposes of this section 15, unless the context otherwise requires, reference to “**Construction Agreement**” shall include an “**Associated DNO Construction Agreement**”.
- 10 **Distributed Generation**  
**Users** in the category of (d) above are liable for the **Cancellation Charge** on a reduction in **Developer Capacity** in and/or termination of the **Construction Agreement** between **The Company** and the **User**. Given this such **Users** will have arrangements in place with such **Distributed Generation** for reimbursement by such **Distributed Generation** of the **Cancellation Charge** and recognising this there are specific payment arrangements between the **User** and **The Company** provided for in the **Construction Agreement** between the **User** and **The Company**.

## WACM3

### PART TWO CALCULATION OF CANCELLATION CHARGE

- 1.1 The **Cancellation Charge** payable shall be calculated in accordance with this Part Two of Section 15.
- 1.2 Value Added Tax will be payable on any **Cancellation Charge**.
- 2 **Completion Date and Trigger Date**
  - 2.1 In making an **Offer** to a **User** **The Company** will consider the **Construction Works** and **Construction Programme** associated with that **Offer** and taking into account the nature and programming of the **Construction Works** and the **Consents** associated with this will identify dates in the **Construction Agreement** as the **Completion Date**.
  - 2.2 The **Trigger Date** will be (a) the 1 April which is three **Financial Years** prior to the start of the **Financial Year** in which the **Charging Date** occurs or (b) where the **Charging Date** is less than three **Financial Years** from the date of the **Construction Agreement**, the date of the **Construction Agreement** (in which case the **Financial Year** in which such date falls is the relevant **Financial Year** within the **Cancellation Charge Profile** working back from the **Charging Date**).
  - 2.3 The **Trigger Date** is the date from which the **Wider Cancellation Charge** applies and the date from which, in the case of the **Fixed Cancellation Charge**, the **Fixed Attributable Works Cancellation Charge** rather than the **Pre Trigger Amount** applies. Prior to the **Trigger Date**, only the **Attributable Works Cancellation Charge** applies, or in case of the **Fixed Cancellation Charge**, the **Pre Trigger Amount** applies.
  - 2.4 **Changes to Construction Programme or Construction Works or Transmission Entry Capacity or Developer Capacity**
    - 2.4.1 Where the **Construction Programme** or the **Construction Works** or **Transmission Entry Capacity** or **Developer Capacity** subsequently changes from that in the original **Construction Agreement** the following principles will apply in respect of reassessing the **Trigger Date** and the **Cancellation Charge**.

### WACM3

**2.4.2** Where such change is as a result of **The Company's** exercise of its rights under the **Construction Agreement** then:

- (i) Where there is a delay to the **Completion Date** and the **Trigger Date** has not passed, the **Trigger Date** will be revised by reference to the revised **Completion Date**. The period for which the **Pre Trigger Amount** applies, will be adjusted to reflect the new **Trigger Date**;
- (ii) Where there is a delay to the **Completion Date** and the **Trigger Date** has passed, the **Trigger Date** will be revised by reference to the revised **Completion Date** and the **Cancellation Charge** (including the **Cancellation Charge Profile**) will be adjusted to reflect the revised date.
- (iii) In the case of a **Fixed Cancellation Charge**, a change in the **Attributable Works** will not adjust the **Cancellation Charge Profile** unless the **Completion Date** has also changed in which case (ii) above will apply.

**2.4.3** Where a change is as a result of the **User's** request then, notwithstanding any change in the **Completion Date**;

- (i) Where there is a delay to the **Completion Date** and the **Trigger Date** has not passed, the **Trigger Date** will be revised by reference to the revised **Completion Date**. The period for which the **Pre Trigger Amount** applies, will be adjusted to reflect the new **Trigger Date**;
- (ii) Where there is a delay to the **Completion Date** and the **Trigger Date** has passed, the **Trigger Date** will not be revised by reference to the revised **Completion Date** and the **Cancellation Charge** will not be adjusted downwards but will be held at that level and will increase from that level in line with any new **Construction Programme**.

## WACM3

### 3 Calculation of Cancellation Charge

3.1 The **Cancellation Charge** is the charge due to **The Company** by a **User** on termination of a **Construction Agreement**, **Disconnection** or a reduction in **Transmission Entry Capacity** or **Developer Capacity** prior to the **Charging Date** and **Disconnection** or a reduction in **Transmission Entry Capacity** on or after the **Charging Date**.

3.2 This calculation of the **Cancellation Charge** is different:

- (a) where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced before the **Trigger Date** (the "**Pre Trigger Amount**" or "**Actual Attributable Works Cancellation Charge**") (Paragraphs 3.6.1 and 3.7);
- (b) where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** (the "**Fixed Attributable Works Cancellation Charge**" or "**Actual Attributable Works Cancellation Charge**" and the "**Wider Cancellation Charge**") (Paragraphs 3.5 to 3.8);
- (c) depending whether the **Attributable Works Cancellation Charge** is a **Fixed Cancellation Charge** or **Actual Attributable Works Cancellation Charge** (Paragraphs 3.5 to 3.7);
- (d) where the **Transmission Entry Capacity** is reduced or **Disconnection** occurs on or after the **Charging Date** (the "**Wider Cancellation Charge**") (Paragraph 3.8).

3.3 **Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced before the Trigger Date**

### WACM3

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced before the **Trigger Date** the **Cancellation Charge** shall be calculated as follows:

***Cancellation Charge = Attributable Works Cancellation Charge***

#### 3.4 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced on or after the Trigger date but prior to the Charging Date

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the Trigger date but prior to the **Charging Date** the **Cancellation Charge** shall be calculated as follows:

***Cancellation Charge = Attributable Works Cancellation Charge plus Wider Cancellation Charge***

The following Paragraphs set out in detail the **Attributable Works Cancellation Charge** and **Wider Cancellation Charge** and Paragraph 3.7 sets out the above calculation by formula.

#### 3.5 Attributable Works Cancellation Charge

The **Attributable Works Cancellation Charge** can be either the **Fixed Cancellation Charge** or **Actual Attributable Works Cancellation Charge**.

#### 3.6 Fixed Cancellation Charge

The calculation of the **Fixed Cancellation Charge** is different where the **Construction Agreement** is terminated or **Transmission Entry Capacity** or **Developer Capacity** is reduced before ("Pre Trigger Amount") or on or after the **Trigger Date** ("**Fixed Attributable Works Cancellation Charge**").

##### 3.6.1 Pre Trigger Amount

### WACM3

Should a **Construction Agreement** be terminated, or **Transmission Entry Capacity** be reduced or **Developer Capacity** be reduced before the **Trigger Date** the **Fixed Cancellation Charge** is the **Pre Trigger Amount** calculated as a £/MW figure by reference to the **Cancellation Charge Profile** and derived in accordance with the formula at Paragraph 3.9 and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 7:

#### 3.6.2 Fixed Attributable Works Cancellation Charge

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the **Trigger Date** but prior to the **Charging Date** the **Fixed Cancellation Charge** is the **Fixed Attributable Works Cancellation Charge** calculated as follows:

***Fixed Attributable Works Cancellation Charge = (Attributable Works Cancellation Amount x MW Reduction in Transmission Entry Capacity or Developer Capacity) x Cancellation Charge Profile***

*Where the Attributable Works Cancellation Amount results in a £/MW figure calculated as follows:*

***(Estimated Attributable Works Capital Cost x (1 – Local Asset Reuse Factor) x Strategic Investment Factor x Distance Factor) / Transmission Entry Capacity or Developer Capacity***

*Where the Estimated Attributable Works Capital Cost is the fair and reasonable estimate of the Attributable Works Capital Cost for each component within the Attributable Works and which is as set out in the Notification of Fixed Cancellation Charge by reference to which an election is made in accordance with Paragraph 6.*

*Where the Attributable Works are as specified in Appendix MM of the Construction Agreement at the time of the Notification of Fixed Cancellation Charge by reference to which an election is made in accordance with Paragraph 6.*

### WACM3

Where the **Local Asset Reuse Factor** is the factor representing the potential for reuse of each component within the **Attributable Works** as set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

Where the **Strategic Investment Factor** is a factor calculated for each component within the **Attributable Works** as a ratio of the **Transmission Entry Capacity** and/or **Developer Capacity** sharing those **Attributable Works** against the secured capability of the **Transmission** assets and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

Where the **Distance Factor** is a factor calculated for each component within the **Attributable Works** as a ratio of distance to the nearest suitable MITS substation and distance to the MITS substation where the **Attributable Works** connect as set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6. This factor is only valid for components where distance is relevant i.e. cables and overhead lines.

Where the **Cancellation Charge Profile** is the profile derived in accordance with the formula at Paragraph 3.10 and set out in the **Notification of Fixed Cancellation Charge** by reference to which an election is made in accordance with Paragraph 6.

**3.6.3** The **Pre Trigger Amount** and the **Attributable Works Cancellation Amount** (and the factors used in deriving this) and the **Cancellation Charge Profile** are fixed at the time an election is made in accordance with Paragraph 7 and the **Pre Trigger Amount** and **Attributable Works Cancellation Amount** are not subject to any further specific adjustment, reconciliation or credit should any of the **Transmission** assets resulting from the **Attributable Works** be reused or of benefit to other **Users**.

### **3.7 Actual Attributable Works Cancellation Charge**

These will then be subject to reconciliation in accordance with this Section 15 Part Four.

### **3.8 Wider Cancellation Charge**

### WACM3

The **Wider Cancellation Charge** results in a £/MW charge calculated as follows:

**Zonal Unit Amount** x (MW of reduction in **Transmission Entry Capacity** or **Developer Capacity**) x **Cancellation Charge Profile**

The **Zonal Unit Amount** is a £/MW figure calculated by reference to the **Generation Zone** in which the **Power Station** is to be located as set out in the **Cancellation Charge Statement**. It is calculated by reference to the **Annual Wider Cancellation Charge Statement** for the **Financial Year** in which notice of reduction in **Transmission Entry Capacity** or **Developer Capacity** is given and/or notice of **Disconnection** is given or, where in the case of an **Event of Default** where notice is not given, the **Financial Year** in which the reduction in **Transmission Entry Capacity** or **Developer Capacity** or **Disconnection** occurs.

Where the **Zonal Unit Amount** = **Load Related Boundary Capex** apportioned to **Boundaries** by **Boundary (LR) Level** and **Non Load Related Boundary Capex** apportioned to **Boundaries** by **Boundary (NLR) Level**, summated and multiplied by **Boundary Non Compliance Factors** and then mapped to **Generation Zones** and divided by the **Wider User Commitment Liability Base**, excluding those **Power Stations** in respect of which a **Construction Agreement** has terminated or **The Company** has been notified of a reduction in the **Transmission Entry Capacity** or **Developer Capacity** or **Disconnection** within the period in question.

Where **Load Related Boundary Capex** is the capex required to increase capability in the network as determined by **The Company** for a given **Financial Year**, excluding any **Attributable Works Capital Cost**, multiplied by the **User Risk Factor** and the **Global Asset Reuse Factor**, as set out in the **Annual Wider Cancellation Charge Statement**.

Where **Non Load Related Boundary Capex** is the capex required to maintain capability in the network as determined by **The Company** for a given **Financial Year**, excluding any **Attributable Works Capital Cost**, multiplied by the **User Risk Factor** and the **Global Asset Reuse Factor**, as set out in the **Annual Wider Cancellation Charge Statement**.

### WACM3

Where the **User Risk Factor** is the share of total risk between generation and consumers, set at 0.5.

Where the **Global Asset Reuse Factor** for a given **Financial Year** is as set out in the **Annual Wider Cancellation Charge Statement**.

Where the **Boundaries** are as detailed in Section 8 of the **Seven Year Statement**.

Where **Boundary (LR) Level** is the depth of each **Boundary** as determined by **The Company** multiplied by the increase in required capability on that **Boundary** over the forthcoming four year period, as set out in the **Seven Year Statement**.

Where **Boundary (NLR) Level** is the depth of each **Boundary** as determined by **The Company** multiplied by the available capability on that **Boundary** in the year in question, as set out in the **Seven Year Statement**.

Where **Boundary Non Compliance Factors** are the ratio between the available capability and required capability on each **Boundary** as detailed in Section 8 of the **Seven Year Statement**, capped at 100%.

Where **Generation Zones** are (a) as defined in the **Seven Year Statement** for the **Financial Year** in which the termination or reduction in **Transmission Entry Capacity** or reduction in **Developer Capacity** occurs prior to the **Charging Date** (or where not so defined as set out in the relevant **Cancellation Charge Statement**) or (b) as defined in the **Seven Year Statement** for the **Financial Year** in which the notice of **Disconnection** or reduction in **Transmission Entry Capacity** occurs on or after the **Charging Date**.

Where the **Wider User Commitment Liability Base** is the total amount of generation in MW liable for the **Wider Cancellation Charge** in the year in question and the total amount of generation in MW which will become liable for the **Wider Cancellation Charge** in the year in question and set out in the **Annual Wider Cancellation Charge Statement**.

## WACM3

Where the **Cancellation Charge Profile** is the profile derived in accordance with the formula at Paragraph 3.10 or 3.11, as appropriate.

### 3.9 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced before the Trigger Date

Should a **Construction Agreement** be terminated, or **Transmission Entry Capacity** be reduced or **Developer Capacity** be reduced before the **Trigger Date** the **Cancellation Charge** shall be calculated as follows:

*Cancellation Charge = Either the Actual Attributable Works Charge or, where on the Fixed Attributable Works Cancellation Charge, a charge calculated as follows:*

*Reduction in Transmission Entry Capacity or Reduction in Developer Capacity x Pre Trigger Amount<sub>t</sub>*

*Where:*

- *Transmission Entry Capacity /Developer Capacity expressed in MW.*
- *Termination of Construction Agreement equates to a reduction in Transmission Entry Capacity or Developer Capacity to zero*
- *Pre Trigger Amount<sub>t</sub> which varies according to the number of Financial Years from the date of the Construction Agreement to the Trigger Date:*
  - *up to the end of the first Financial Year (i.e. t =1), the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£1000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*
  - *Where t = 2, the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£2000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*
  - *Where t ≥ 3 up to Trigger Date, the lower of either (a) Pre Trigger Amount<sub>t</sub> = (£3000/MW) or (b) a sum equivalent to the Cancellation Charge (and if not known an estimate of this) which would apply in the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs.*

### 3.10 Where the Construction Agreement is terminated or Transmission Entry Capacity or Developer Capacity is reduced on or after the Trigger Date but prior to the Charging Date

Where a **Construction Agreement** is terminated or **Transmission Entry Capacity** is reduced or **Developer Capacity** is reduced on or after the **Trigger**

- *Fixed Attributable Works Cancellation Charge = Attributable Works Cancellation Amount x MW reduction in Transmission Entry Capacity or Developer Capacity x Cancellation Charge Profile<sub>t</sub>*
- *Cancellation Charge Profile<sub>t</sub>, which varies according to the number of Financial Years working back from the Charging Date to the Trigger Date:*
  - *In the Financial Year in which the Charging Date occurs (t=0), Cancellation Charge Profile = 1.0,*
  - *In the Financial Year which is 1 Financial Year prior to the Financial Year in which the Charging Date occurs (t=1), Cancellation Charge Profile = 0.75;*
  - *In the Financial Year which is 2 Financial Years prior to the Financial Year in which the Charging Date occurs (t=2), Cancellation Charge Profile = 0.5; and*
  - *In the Financial Year which is 3 Financial Years prior to the Financial Year in which the Charging Date occurs (t=3), Cancellation Charge Profile, = 0.25.*

Where:

- *Termination of Construction Agreement equates to reduction in Transmission Entry Capacity or Developer Capacity to zero*
- *Wider Cancellation Charge = Zonal Unit Amount x reduction in Transmission Entry Capacity or Developer Capacity x Cancellation Charge Profile<sub>t</sub>*
- *Cancellation Charge Profile<sub>t</sub>, which varies according to the number of Financial Years working back from the Charging Date to the Trigger Date:*
  - *In the Financial Year in which the Charging Date occurs (t=0), Cancellation Charge Profile = 1.0,*

### 3.11 Where the Transmission Entry Capacity is reduced or Notice of Disconnection is given on or after the Charging Date

The **Cancellation Charge** payable on notice of **Disconnection** and/or a reduction in **Transmission Entry Capacity** on or after the **Charging Date** is calculated on a £/MW basis as follows by reference to the **Zonal Unit Amount** for the **Financial Year** in which the notice is given:

*Cancellation Charge = Wider Cancellation Charge*

Where:

- *Disconnection equates to reduction in Transmission Entry Capacity to zero*
- *Wider Cancellation Charge = Zonal Unit Amount for year in which notice of disconnection or reduction is given x reduction in Transmission Entry Capacity x Cancellation Charge Profile<sub>t</sub>.*
- *Cancellation Charge Profile<sub>t</sub> which varies according to the number of Financial Years notice given from the date of notification to Disconnection or reduction in Transmission Entry Capacity:*
  - *where notice is given in the Financial Year in which such notice is to take effect (t=0) Cancellation Charge Profile = 1,*
